AC-1	Teacher lounge	e Trane 199	TWE120A300E B	B L304K215H	Split AH	UNKNOWN	FAIR	YES	YES 10%			16x25x1-4	4.5	NO	208/3	BELT	A50		Unit is in FAIR condition, however at time of inspection found air filters are plugged, belt is worn an making noise, evaporator coil is icing up.	d
AC-1 Condenser	Ground	Trane 199	6 TTA120A300B	B L303YKNAH	Split Cond	UNKNOWN	FAIR	YES	N/A		27.2		4.2	NO					Unit is in FAIR condition, condenser coil needs to be cleaned, compressor contactor needs to be replaced is bady pitted.	
RTU-2	Roof	Trane 199	YCD210C3H0A	L32102958D	RTU Gas/Elec	Media Center	POOR	YES	YES 10%		12.5/18.13	20x20x2-2 20x25x2-4	18.8	NO	208/3	BELT	BX68-1		Unit is in POOR conditon, Economizer screens are damaged, blower motor bearings are bad, motor shiv, idler pulley and blower pulley are worn, belt is worn. Circuit 1 pumping down has plugged filter drier. Contactor for blower and compressor 2 need replacement. Condenser coil is dirty and needs to be cleaned. HX inspected	er en
AC4	Attic	Trane 199	MCAA030NAG ABAB0	O K96H74266	Split AH		FAIR	YES	YES 2%		N/A	20x20x2-8 16x20x2-12	36.5	NO	200/3	BELT	BX85-2		Unit is in FAIR condition, Belts need replacement, filters are dirty. Outdoor air dammper is set to 15% open but is almost completely closed. Damper linkage needs to be adjusted, tested actuator is working properly. Face and bypass damper has a disconnect actuator and a block of wood stuck between damper blades to hold open. One circuit of cooling is freezing slightly.	
AC4 Condense	r Roof	Trane 199	RAUCC50ECM 31B	⁰ J96G82363	Split Cond	UNKNOWN	FAIR	YES	N/A		39.5/44.03		3.2/3.7/2.7	NO	200/3				Unit is in fair condition, at time of testing was only running 2 stages of cooling, checked all contactors and fans, condenser coils need to be washed.	
RTU-5	Roof	Trane 199	YCD360AELB2 A2001F	J96G1338	RTU Gas/Elec	UNKNOWN	FAIR	YES	YES 10%		41.8/45.47	16x20x2-16	25.2	NO	200/3	BELT	BX103-1		Unit is in FAIR condition, Blower motor has worn bearings, motor shiv and blower pulley are worn, belt is worn and loose, condenser coils are impacted and need cleaning, Ignitor is drawing low amperage and will need to be replaced.	
RTU-6	Roof	Trane 199	6 YCD240B3L0D	E L30102245D	RTU Gas/Elec	Auditorium	POOR	YES	NO 0%		38.4/47.23	20x25x2-4 20x20x2-4	15.7	NO	208/3	BELT	BX75-1		Unit is in POOR condition, Economizer screen is missing, economizer is not functional, harness is unplugged and heavily corroded with broken wiring and is in the closed position. Blower motor has bad bearings, motor shiv idler pulley and blower pulley are worn out. Blower contactor needs replacement. Compresor 2 not operating. Condenser coil is heavily impacted, inner coil is unsecured and rubbing on condenser fan housings.	9/24 Found faulty connection on winding temp limit switch for compressor 2, repaired connection. Secured inner condenser coil. 2nd stage compressor over amps due to poor air flow through condenser coil, left breaker for compressor off in unit.
RTU-7	Roof	Trane 199	YCD360AELB2 A2001F	J96G91339	RTU Gas/Elec		FAIR	YES	NO 0%		42.3/43.33	16x20x2-16	17.4	NO	200/3	BELT	BX103-1		Unit in FAIR condition, economizer screens are damaged, economizer is disconnected, note in unit saying due to gas smell. Blower motor has noisy bearings and should be replaced. Blower pulley and motor shiv are worn and needs replacement. Belt needs replacement. Condenser fan motor 3 need to be replaced, is making noise, Trane was out for service call on unit, will need to find out if they are replacing.	
RTU-8	Roof	Trane 199	S YCD181C3LAA	N26100910D	RTU Gas/Elec	Café	FAIR	YES	YES 10%		22.8/12.97	20x20x2-4 20x25x2-4	6.4	NO	208/3	BELT	BX64-1		Unit is in FAIR condition Blower belt is worn and loose, idler pulley needs replacement. Economized screen damaged, contactors for #2 compressor and blower need to be replaced, corrosion on Ltb-1 terminal board. Condenser coil is impacted and needs to be cleaned.	
RTU-9	Roof	Trane 199	SFHFC30EHPI 6A39D1D101A TY	3 R J98F71764	RTU Gas/Elec	UNKNOWN	FAIR	YES	YES 10%		41.2/40.73	16x20x2-8 20x20x2-16	14.9	NO	200/3	BELT	BX75	A67-1	Unit is in FAIR condition, compressor 1 and 2 contactors are in need of replacement, blower contactor needs to be replaced. Blower motor shiv and blower pulley are worn, belt is worn out. There are refrigerant oil leaks on system, liquid line drier is wet with oil, both inlets of compressors are covered with oil as well. Condensate trap is missing on one side of the unit will need to be replaced.	
EF-1	Roof	Greenhed	CUBE-240-7	96E12145	Mushroom	Kiln Rm 212	FAIR	YES	Yes	FAIR	3/4HP	1725	1.9	N	208/3	BELT	A34	Curb 33x33 Fan 34x32	Exhaust fan in is FAIR condition belt is very WORN and needs to be REPLACED
