**Subject:** RE: [External Email] Application 221-29 South End Pacific LLC

Good Morning Mrs. Dell and the Planning Board Members,

I am also writing to share my concerns/opposition against ZB Application 221-29 in which the owners met with the NRZ and small groups to hear their concerns about the project. But it is very disturbing that they declined to go back to HPAC to discuss the historical improvements to the existing buildings along with the height relevant to the historical houses. We are not against development but the development on that corner should not overpower and stick out like a sore thumb but be in line with the V-C, 5-story height and then stepping down as Terry mentioned to 4 feet along the side streets. It is hoped that the Planning Board will not move forward and approve this project until they meet and be in agreement with the improvements suggested by HPAC, which would blend in with the existing Historical community.

Thank you

Sheila Barney  
South End Resident Homeowner
