The level of information, data, and scope of analysis shall be sufficient to demonstrate compliance with the requirements of these Regulations and the standards and criteria of other units of government having separate jurisdiction. Where feasibility of the proposed *Development* depends upon off-site improvements in infrastructure systems, a suitable improvement plan and binding agreement shall be provided.
- g. **Schedule of Improvements.** A proposed timetable shall be provided indicating the completion of major site improvements, the establishment of uses, and the general sequence of construction.
- h. **Additional Information.** The Zoning Board or Land Use Bureau may request additional information deemed necessary for the comprehensive review of a *GDP*.

procedures. Final Site and Architectural Plans for development that stay within the limitations established by the *GDP* shall be subject to Administrative Review only by the Zoning Board.

- c. **Modifications of General Development Plans.** No revision of a *GDP* shall be required if the proposed Site and Architectural Plans are within the limitations of the established *GDP*. The Zoning Board shall review modifications to *GDPs* administratively if the proposed changes are within the limitations established by the underlying Zoning Regulations and are de minimis. Revisions to *GDPs* exceeding these thresholds established in this paragraph shall require a Public Hearing by the Zoning Board.

19.H.5. Validity

- a. **Standard Validity.** Unless specified differently in the Conditions of Approval for the *GDP* itself, *GDPs* shall be valid for a period of ten (10) years from the effective date of the approval. When all extensions are exhausted a new application shall be required pursuant to Subsection 19.C.4.a.
- b. **Applicability of Zoning Regulations.** Unless otherwise specified in the conditions of approval for a specific *GDP*, should the underlying Zoning Regulations change, buildings which have been approved by the *GDP* but have not received approval for a Final Site and Architectural Plan must follow the new Zoning Regulations. Applicants may request by *Special Permit* an Amendment to the *GDP* to be grandfathered-in under the Zoning Regulations valid at the time of the *GDP* approval, if the Zoning Board makes a finding that:
 - (1) adhering to the new Regulations would be an undue hardship; or
 - (2) maintaining the old Zoning Regulations would not adversely impact on neighbors and abutters.
- c. **Other Validity terms.** The Zoning Board may, at its sole discretion, reduce or increase the validity of *GDP* approvals in its Certificate of Approval. Provided, however, that the initial period of validity shall not exceed twenty (20) years, and no more than three (3) five-year extensions shall be granted.
