FISCAL YEAR 2022-23

CHANGES FOR THE NEXT FISCAL YEAR

- The Division has been understaffed for several years, so is planning on the following:
 - Filling the current plumbing vacancy in the Parks Maintenance Department due to extended medical leave to alleviate the outsourcing of all required plumbing repairs which can be handled by in-house personnel during normal operating hours.
 - Taking the current electrician vacancy in the Parks Maintenance Department due to retirement and moving it to a plumbing position in the Facilities Maintenance Department to not only alleviate the outsourcing of all required plumbing repairs but to ensure that all these needs are met in all areas under this Division's control.
- The implementation of Organic Field Maintenance on all athletic fields Citywide
 - Specific Additional Land Supplies (Seed, Fertilizer and Lime)
 - Two additional Park Maintenance Workers
- Handling all reporting and filing for FEMA reimbursement associated with repairs to City and BOE facilities/property due to Storm Ida.

NEW OR EXPANDED SERVICES/PROGRAMS

- Overseeing operation of Old Town Hall
 - Hiring a Facilities Maintenance Technician
 - Converting all preventative maintenance to existing City contracts to get better pricing
- Handling all reporting and filing for FEMA and insurance reimbursement associated with repairs to City's and BOE's buildings, properties & infrastructure due to Storm Ida.
- Reconstructed Park Attendant Program to work in conjunction with the Beach/Park Permit Program to ensure efficiency, productivity, cost savings and adherence of Park/Beach Rules and Regulations.

HIGHLIGHTS, EFFICIENCIES AND SERVICE IMPROVEMENTS FOR 2021-2022

- **The Division as a whole made several changes during this past year to provide better service and efficiency to the City and budgetary requirements.**
 - The continuation of the Covid Supply Centralized Center which was able to obtain supplies for the entire City to ensure that needs were met for all entities of the City at a cost savings
 - Implementing several additional preventative maintenance programs in facilities, beaches, fields and parks to prevent costly repairs
 - The handling of all Storm Ida damages for residents and City to the State for declaration, which was awarded February 3, 2021.
 - The Division working together to ensure that all requirements and requests were handled in a timely manner and met
 - The Division took on tasks that are not normally their responsibility to ensure that the City stayed operational due to the City being shut down for the first portion of the year.
 - The Division was instrumental in the reopening of the City starting in September.
 - Coordinating and assisting the Health Department in setup, cleaning and breakdown of all vaccination sites throughout the City.
