EMSL maintains liability limited to cost of analysis. Interpretation and use of test results are the responsibility of the client. This report relates only to the samples reported above and may not be reproduced, except in full, without written approval by EMSL. EMSL bears no responsibility for sample collection activities or analytical method limitations. The report reflects the samples as received. When the information supplied by the customer can affect the validity of the result, it will be noted on the report. Samples analyzed by EMSL Analytical, Inc. Wallingford, CT AlHA-LAP, LLC--EMLAP Accredited #165118

Initial report from: 08/30/2019 17:46:10

^{++ =} Includes other spores with similar morphology; see EMSL's fungal glossary for each specific category.

^{* =} Sample contains fruiting structures and/or hyphae associated with the spores.

No discernable field blank was submitted with this group of samples.
