Old Business

- **Decision: Subdivision #4007 Request to Revise Condition No.12**, Boris and Helen Miloslavsky have requested to revise Condition No. 12, requiring the posting of a performance bond prior to filing the Final Subdivision Map. The Board discussed this request and its consensus was:
 - (1) Revising this condition would set a bad precedent for existing and future subdivisions;
 - (2) The applicant knew about this condition prior the adoption of the subdivision;
 - (3) This is a fairly standard conditions that is placed on all subdivisions; and
 - (4) Mr. Quick reported that the cost of this bond would be about \$30 per \$1,000 or approximately \$1,500 a year, which for a subdivision is not too burdensome on the applicant for two buildable lots.After the Board's discussion, Mr. Tepper moved to **deny** this request to revise Condition No. 12 requiring the posting of a performance bond prior to filing the Final Subdivision Map; Mr. Quick seconded the motion and it passed unanimously with eligible members present voting, 4-0 (Dell, Naumowicz, Quick, and Tepper).
- Mr. Tepper reported that at the last SWRPA meeting, there was a long discussion on the reorganization into Western Connecticut Council of Governments and specifically Mayor Martin's reluctance to go along with establishing the Metropolitan Planning Organization that includes all of the eight SWRPA municipalities and the 10 municipalities to the north. The Mayor has veto power

since the City of Stamford represents over 25 percent of the total population of the new Council of Governments.
