Janet Vaccaro, President of the Retiree Association requested clarifying information from Morgan Stanley regarding ESG funds. Kevin Nichols of Morgan Stanley reiterated what his colleague, David R. However, Mr. Nichols stated that Morgan Stanley could run an Impact Quotient Report, which would provide a basis to identify and prioritize impact themes and social and environmental impact preferences using multiple third-party data sources. The result of the report would offer suggestions for investment solutions that may better align the portfolio with the impact preferences.

The team from Milliman reviewed each component, and if applicable, provided suggestions. Please note that there were no changes proposed for the Economic Assumptions as the actuaries found those well suited for the Fund. However, Milliman proposed assumption changes for all of the Demographic components, including: Turnover, Retirement, Disability and Sick/Vacation Day Exchange. The Funding Method was the last component reviewed, in which there were proposed assumption changes to both the Cost Method and Amortization Method.

Milliman provided a chart with the proposed assumption changes on the valuation results using 2021 data in order for Trustees to visualize the impact of the proposed changes on the Plan. The valuation data from 2022 would be provided as soon as available.

Mary Lou Rinaldi made a motion to adopt the findings of the Milliman Experience Study with the understanding that other Boards are involved in these decisions as well as the City of Stamford – Mayor's Office.
