PERNA LANE AREA SANITARY SEWER PROJECT, PHASE 1

The Perna Lane Area Sanitary Sewer Project, Phase 1, will be presented by Tighe & Bond Engineers. Tighe & Bond Engineers will explain the proposed design changes, how the design changes affect the project, give an updated construction cost estimate, and the best estimate of sewer assessment costs.

Those interested in attending to listen to the meeting should use the registration link listed above. The meeting will allow for questions and comments from the public. If you wish to speak at the meeting, we ask that you please contact Crystal Blair, cblair@stamfordct.gov, or Abigail Logrono, alogrono@stamfordct.gov by noon, January 18th, to be placed on a list for the meeting and follow the ground rules set below.

Tighe & Bond Engineers and SWPCA staff will be available to answer questions and address any specific issues you may have.

Copies of the presentation materials will be available on the City's website at <https://www.stamfordct.gov/government/operations/water-pollution-control-authority>

Web Meeting Ground Rules:

- The meeting shall be recorded, and the video shall be posted on the City of Stamford website http://cityofstamford.granicus.com/ViewPublisher.php?view_id=15
- The SWPCA shall moderate the audio for attendees.
- Attendees shall be on mute and unmuted when called to speak by the SWPCA.
- Attendees will have 3 minutes to make their comments or ask questions.
- Any attendee wishing to submit comments/questions in writing can submit them during the meeting through a Chat message. You are encouraged to submit your questions using the Chat capability so that we will have a record of each question. Because of the number of people expected to attend the meeting, the meeting can easily be bogged down into very detailed discussions and risk not getting to every question. Any attendee wishing to submit comments/questions in writing can also send them before the meeting to alogrono@stamfordct.gov or cblair@stamfordct.gov so we can respond after the session if we are unable to address the questions during the session.

If you have any questions or comments, please contact Ann Brown, P.E., Supervising Engineer, at (203) 977-5896 or abrown2@stamfordct.gov.

Thank you, in advance, for your cooperation and patience.
