**Capital Budget**

**2023-2024**

**Capital Plan**

**2024-2030**

**Recommended by the Stamford Planning Board**

## ***CAPITAL BUDGET TRANSMITTAL MESSAGE***

February 1, 2022

Presented herein is the Planning Board's recommended Capital Budget for FY 2023-2024 totaling **\$89,531,000**.

While the Planning Board is cognizant of the fiscal constraints set by the Administration and the Board of Finance, the Planning Board believes our primary role is planning for the capital needs of the City and attached hereto is the recommended Capital Plan for FY 2024-2030 for the City of Stamford in which to adequately address the City's needs.

Tiers			
Tier	GO Bonds	Other	Planning
1	29,848,000	12,667,000	42,525,000
2	606,000	-	606,000
3	-	-	-
4	35,542,000	11,858,000	46,400,000
<b>Totals</b>	<b>\$64,996,000</b>	<b>\$24,535,000</b>	<b>\$89,531,000</b>

The Stamford Charter sets the ground rules and timing for formulation and adoption of the Capital Budget: a process that is initiated in September when the Planning Board sets up its departmental review calendar and ends in May when the Board of Representatives gives final approval of the Capital Budget. In September, the Planning Board, along with the Director of Office of Policy & Management (OPM), sent out guidelines to City Department Heads and Outside Agencies on how to prepare their Capital Plans. Included in the guidelines were Capital Planning Policies that stressed the continuation of "Site Specific Project Information"; unbundled project submissions; existing project balances and department and outside agency project prioritization. During four joint public meetings, the Planning Board and members of the Board of Representatives (NOTE: The Board of Finance was also invited but choose not to participate), along with OPM staff, heard requests from each Department and Outside Agency and reemphasized the Capital Planning Policies, as well as the fiscal restraints of \$70 million Safe Debt Limit. The Planning Board's assumptions were that: (a) approximately \$35 million for all projects the City was anticipating for FY 2023-2024; (b) approximately \$35 million for the renovation and construction in school buildings

As per Section C8-20-5 of the City Charter, the Planning Board held a Public Hearing on the Planning Board's Draft Capital Budget on **Tuesday, January 10, 2023** where residents came and addressed a number of issues for the Planning Board's consideration. The Planning Board took in all these suggestions and used them to guide the final decisions of what to include in this Final Planning Board Capital Budget submission for FY 2023-2024 and Capital Plan FY 2024-2030. It is the Planning Board's opinion the guidelines and joint public meetings have resulted in improved capital planning, and better project prioritization; however, it is also clear to the Planning Board that the City's backlog of infrastructure needs far exceeds capital funds into the foreseeable future.

In addition to establishing the rules and timing for formulation and adoption of the Capital Budget, the Stamford Charter also establishes a process for the referral and review of individual public works proposals that comprise the Capital Budget. In accordance with these procedures, the projects

described herein represent the Planning Board's recommended Capital Budget FY 2023-2024, and along with this Budget Transmittal Message, constitute the Planning Board's report called for by Section C6-30-13 of the Stamford Charter.

This recommended Capital Budget was developed by thoroughly reviewing each department's / agencies' requested project(s), using the following **Project Review Criteria**:

- a. What are the department's or agencies' highest priorities?
- b. Does the project reflect the short and long term planning goals of the City of Stamford?
- c. Can the project be completed in one year or is it a multi-year project?
- d. Is it legally mandated?
- e. Will the project make money or save money for the City?
- f. Does the project include grants (Federal, State or private), or rebates?
- g. What level of funding was provided in previous years, and what is the current balance?

The Planning Board has carefully examined projects focusing only on the 2023-2024 fiscal year and considers the Capital Plan FY 2024-2030 to only serve as a benchmark in place for that time period.

**Criteria for Tiers:** After using the Project Review Criteria outlined above, the Planning Board placed all of its Capital Budget FY 2023-2024 requests into four (4) Tiers, based on the following criteria:

- Tier 1:** The Planning Board recommends the City needs to include these projects in its Capital Budget FY 2023-2024 to protect the public health, safety and welfare, or if it is a high priority project that includes grants. The Planning Board recommends \$42,525,000.
- Tier 2:** The Planning Board recommends these projects as important to include in its FY 2023-2024 Capital Budget, but given the fiscal constraints on the City, the Mayor needs to review and decide whether to include these projects in this year's Capital Budget, and at what level. The Planning Board recommends \$606,000 of the projects to be placed in Tier 2
- Tier 3:** Due to the City's capital budget constraints, the Planning Board decided not to fund these projects during the 2023-2024 fiscal year. The Planning Board also determined that several projects placed in tier 3 are important to the city but decided not to recommend adding additional funding during this budget year as significant balances are still in those projects. Department's should be asked why the approved funding balances were not used on these projects.
- Tier 4:** The Planning Board recognizes the City has significant renovation and construction in school buildings. The Board of Education has established a Long-Term Facilities Plan and created a strategy from which to move forward. Based on the LTFP presented in a joint board meeting, the Planning Board recommends \$35,542,000 of GO Bonds and \$11,858,000 of Grants, totaling \$46,400,000 of the projects to be placed in Tier 4.

FY 2023/2024 Capital Budget

Total \$ 89,531,000

**Respectfully submitted,**

**STAMFORD PLANNING BOARD**

**Comments** - Total project cost is \$1.12M and Private and Pro-bono contributions total ~ \$335,000. The project involves removal (\$100K) of our existing greenhouse and replacing it with a new, code-compliant working greenhouse and conservatory. (3,400 square feet at \$300/sq. ft. With all systems included). The existing greenhouse is a converted sewer cap moved to the arboretum in the 1970's. Its systems are outdated and inefficient. In addition, the greenhouse glass is single pane and poses a liability that has resulted in its closure to the public. Not having a fully functioning greenhouse limits our ability to care for our plant collections, meet other program needs, and carryout our mission.

**Comments** - Certain infrastructure elements date back decades: trails and bridges; well(s) water; septic systems; emergency generator for Silver Educational Center. Numerous trails and bridges require upgrade for vehicles and safe passage for hikers. These improvements would bring these facilities into legal compliance and would also allow for year-round use for revenue-generation purposes. There's an Immediate need for two bridges, that are estimated at 20k for the small vehicular (Hurricane Ida) and 25k for the longer span pedestrian (Hurricane Isaías). Designer will prioritize and estimate the various other bridges along the trails. Some bridges require special buttresses and piles within the wetlands.

**Comments** - The modernization will provide the facility with spaces requested/needed by current library patrons and outside groups: makerspace - flexible meeting/conference rooms; tutoring rooms; technology learning spaces; defined program spaces for preschoolers, youth, teen and adults. It would be done within the current building envelope and per the Master Plan. The master plan also includes code review and an assessment and possible upgrade of the MEP systems. ADA upgrades are also necessary. Appropriate furnishings will be included. Grant funds (through the State Library and others) may be available to leverage City funds. (Recent flooring replacement was funded through private donations.) An Eversource Grant will fund lighting upgrades. Roof leaks and acoustics to be addressed. As of September, HBB is open 6 days/week.

		0	0	0	0	0	2,000,000	1,000,000	1,000,000	0	0	0	4,000,000

**Comments** - The findings from the feasibility study will map out the areas within the City where there is need for libraries to be present. The study will help investigate the current conditions of the branches and viability of the Hunt Center as a potential East Side Branch. With the growing diverse population, the current demands from the community are more programming space, meeting rooms and technology. Out-year capital request anticipates funding for recommendations coming from the study.

Advanced	0.00	Unfunded			

**Project Description** - In 2000, SoundWaters (SW) raised \$2.1M to restore the City-owned Holly House as a Community Environmental Center where, each year, thousands of SPS students, grades 1-12, study and augment their science skills at no charge to the City, all supported by SW fundraising. Hundreds of SPS students attend summer programs (all families eligible for free/ reduced lunch receive full scholarship). SW keeps this historic gem in excellent condition- allocating over \$35K annually for upkeep. Additionally, SW secured over \$100K in Federal funds to repair the site after damage inflicted by major storms Sandy and Irene. After 20+ years, this beloved coastal center requires two critical capital projects: replacement of the HVAC mechanics and replacement of 39 large windows. The geothermal-HVAC system is beyond its useful life and can no longer provide adequate air conditioning and heating. The windows have deteriorated due to age and windy, coastal conditions. Last year SW requested a total of \$419.5K from the City to replace the HVAC system and windows, which was not funded. This year, HVAC costs have escalated, and the total project would cost \$466K. Given constraints on City resources, SW has reduced this Capital request by 15%, to \$356K. This will cover the HVAC only and SW has committed \$110K for window replacement. A City investment of \$356K will pay great dividends, as it sustains a building that is the site of much learning and joy for the students of Stamford.

Detailed Project Cost		Justification for Inclusion in Capital Plan

**Comments** - The Rich Forum was opened in 1992, and the EIFS is past its useful life. Securing and replacing panels of exterior insulation was quoted at \$330k [2015 cost escalated]. It will have to be re-bid. Designer estimates over \$1 million and it can be phased per elevation, based on severity. Existing balance will go towards the design fee and the most crucial (north) elevation. Roof was completed last year, and the parapet coping is scheduled to be replaced soon, with ~\$900k State Grant funds.

**Comments** - From our 2010 Master Plan, eliminating tents on the Meadow and erecting a permanent 30' x 90' pavillion on a 40' x 100' slab foundation would improve the safety and efficiency of our camp, school, and public programs. Three connected vinyl tents are not cost effective with damage replacement, set-up/take-down, inspections, and safety issues each year. We can take advantage of our 2010 utility upgrades ( electric and plumbing) and use the Pavilion year-round. This would support a new earned-income area of business and enhance our programs. We have served over 200,000 visitors annually including over 40,000 school children.

Advanced	0.00	Unfunded	0.37		

**Project Description** - Capital funding is used to subsidize the acquisition and development of affordable housing. The Housing Authority, Charter Oak Communities, is initiating Phase One (61-units) of the Oak Park Redevelopment project. Oak Park is a 166-unit State-sponsored 100% affordable development built in the late 1940's, and the existing structures and component building systems have far exceeded their useful life. The full redevelopment includes demolition of all existing buildings and site infrastructure, construction of 166 new units (primarily townhouse style) that will be approximately one-third larger in size, with modern equipment and new and extremely energy efficient building systems. A multi-family building containing 26-units will also house management, supportive services offices, a security station, and community space. New site infrastructure, including flooding mitigation systems will be installed to alleviate issues with extensive on-site flooding. Capital funds leverage other development funding for Phase One by more than a 32:1 ratio.

**Project Description** - The purpose of the project is to replace Bridge 04070, which is structurally deficient. The existing structure, built in 1957, is a single-span steel beam structure supported by reinforced concrete abutments and wingwalls. The total structure length is 25 feet and the curb-to-curb roadway width is 30.5 feet. The proposed replacement consists of a prestressed concrete deck unit structure supported by new concrete abutments. The proposed structure will have a clear span of 33 feet with a 30.5-foot curb-to-curb width consisting of two 11-foot travel lanes and 4.25-foot shoulders.

**Project Description** - The purpose of the project is to replace Bridge No. 04069, which is structurally deficient. The existing structure built in 1936 and reconstructed in 1993, is comprised of a reinforced concrete deck and steel beam superstructure, supported on stone masonry abutments and wingwalls. The total structure length and width measure 40 feet and 24.8 feet, respectively. The bridge roadway has a curb-to-curb width of 23.4 feet and an approach width of 18 feet, which each provide two lanes (one lane each direction) of vehicular traffic and no sidewalks are present.

**Project Description** - Conversion of the remaining roadway lighting fixtures within the city to LED street lights. The majority are lower wattage 50 and 70watt high pressure sodium fixtures which can be upgraded to 15watt LED fixtures. In addition to saving energy, with the longer life of LED products, maintenance costs will be decreased.

**Project Description** - Scope: Install infrastructure for an EV Fleet in City yards. Justification: Last year President Biden signed an executive order that set a target for half of all government fleets to be zero-emissions capable (including battery electric or BEV, plug-in hybrid electric or PHEV, and fuel cell electric vehicles or FCEV) by 2030. That EO in conjunction with Governor Lamont's announcement in December of last year directing Connecticut State Agencies & Municipalities to implement actions that reduce carbon emissions by 2030, including municipal fleets, means the City should begin building it's EV infrastructure for City Vehicles. There are grants currently available, however, they are for public facing charging infrastructure only and need to be accessible by the public 24 hours a day. City Yards are not. When grants are announced catering to government fleets, more than likely every other government will be vying for the funds available. In addition, both the public sector and private sector will be building their infrastructure and starting the process of converting their fleets to zero emissions vehicles leading to long lead times. This will be compounded by already excessive lead times on both vehicles and charger components due to supply shortages. Starting the process as a City project, we can still move towards making our City fleet greener.

**Project Description** - Scope: Erect 60x100 metal building Justification: Build a 60'X100' metal building behind the vehicle maintenance facility for the storage of vehicles and equipment used for seasonal work such as plow trucks, plows, detachable sanders, leaf vac equipment, blacktop equipment as well as other misc. equipment currently stored out in the elements. Storing vehicles and equipment in an enclosed and heated structure out of the elements would lengthen the life of the equipment as well as reduce maintenance costs and increase uptime. An additional benefit to a garage is snow trucks could be prepped and loaded for an impending storm allowing for the trucks to be out on the road clearing snow and ice quicker.

**Project Description** - Connecticut are by State Law required to develop every ten years a Master Plan that addresses Land Use, Infrastructure, Sustainability and provides a framework for the City's development. The City's current Master Plan went into effect in 2015. To allow for sufficient time and comprehensive community outreach and participation work on the new Master Plan should commence in the next Fiscal Year.

Advanced	0.00	Unfunded			

**Project Description** - A GIS-based, city-wide tree inventory allows efficient management of a municipal forest. It is a tool used by many municipalities, including Greenwich, which is currently completing theirs. The inventory geo locates trees, and records species, condition, size, proximity to utilities, and includes a visual of the tree (via Google Street or a picture). The inventory would include all trees in the City right-of-ways, and the larger City parks including Cove Island, Cummings Park, West Beach, Kosciuszko, and Scalzi. The City has spent millions of dollars over the last 10 years on tree removals related to storm damage. A citywide tree inventory would allow us to manage planting, removals, maintenance and enhance emergency response planning.

**Project Description** - The City has 18 recreation fields, all of which are well used, and will have increased demand for usage as the population continues to grow. A study will include assessment of demographics of current and future players, analysis of sports trends, and best practices in field allocation policy according to player ages, seasons, non-profit versus for profit, and adult versus youth. Another important topic of the study will be whether park and school fields should be combined under one administrator for maintenance and allocation.

Encumbered	0.00	Amount Available	50,000.00		
Advanced	0.00	Unfunded	150,000.00		

**Project Description** - Superstorm Sandy and other weather events have demonstrated the vulnerability of coastal communities like Stamford. Rising sea levels and more severe weather events only increase these vulnerabilities. Some of Stamford's critical infrastructure like the WPCA, important public amenities like parks and public beaches, and the more than 1758 mostly private properties that lie within Stamford's Special Flood Hazard Areas are at risk. Stamford's Master Plan (Policy 7P) and the 2016 Hazard Mitigation Plan outline strategies that can reduce vulnerabilities. However, little has been done to implement them. The Land Use Bureau, therefore, proposes a study of Stamford's Coastal Flood Hazard Areas that will identify flood risks, vulnerabilities, and opportunities to enhance climate resiliency. In addition, the study will develop preliminary design and cost estimates to establish a prioritized list of resiliency projects. This Study could further reduce flood insurance premiums for homeowners through the CRS and is the prerequisite for applying for Federal and State grants for hazard mitigation, such as FEMA's Hazard Mitigation Grant Program, Pre-Disaster Mitigation Program, and others for which only "shovel ready" projects are eligible.

## 542 CP7019 ADA COMPLIANCE- CITY FACILITIES

**Agency:** 0261 **Operations:** Maintenance Facilities

**Contact:** Kevin Murray - (203) 977-4606 - kmurray@StamfordCT.gov

**Location:** Citywide

**Neighborhood:**

**Voting District:**

		Dept Priority	3	Tier	1
<b>HTE Date</b>	2023-01-24	<b>YTD Balance</b>	450,140.39		
<b>Encumbered</b>	300.00	<b>Amount Available</b>	450,140.39		
<b>Advanced</b>	0.00	<b>Unfunded</b>	0.00		

**Project Description** - Prepared detailed report by outside consultant Institute of Human Design of all City Facilities which indicates these regulations adopted revised, enforceable accessibility standards called the 2010 ADA Standards for Accessible Design "2010 Standards" or "Standards". The 2010 Standards set minimum requirements – both scoping and technical – for newly designed and constructed or altered State and local government facilities, public accommodations, and commercial facilities to be readily accessible to and usable by individuals with disabilities

**Voting District:**

**Project Description** - The City's road network contains more than 12,000 manholes and basins. These structures require periodic reconstruction and adjustment at an average cost between \$10,000 per basin. This work is critical to protect the safety of the public and to maintain the City's investment in the infrastructure.

[illegible]

**Comments** - Last years budget has helped chip away at the list of 200 outstanding issues that need repairs. About 100 more has been found throughout the year in additiona to what was already known. The additional request is needed to keep the momentum going and get to a point were the list is managble and wait time for repairs is not years.

[illegible]

## 1227 CP2705 TREE PITT REMEDIATION

Agency: 0211 Operations: Traffic & Road Maintenance

Contact: Thomas Turk - (203) 977-5919 - tturk@StamfordCT.gov

Location: Downtown

Neighborhood:

Voting District:

		Dept Priority	4	Tier	1
HTE Date	2023-01-24	YTD Balance	0.00		
Encumbered	8,700.00	Amount Available	0.00		
Advanced	0.00	Unfunded	0.00		

**Project Description** - This project is to remediate 30 or more tree pitts starting in the downtown area by removing the tree grates and filling the pits with an epoxy stone mix that creates a smooth surface that can absorb water for the tree. This will also provide a smoother walking surface for pedestrians. A few have been down along Bedford Street. This will provide a much safer environment in these highly pedestrian areas.

## 77 CP1281 ROADWAY DESIGN AND RECONSTRUCTION

**Agency:** 0221 **Operations:** Traffic Engineering

**Contact:** Frank Petise - (203) 977-4124 - fpetise@stamfordct.gov

**Location:** CITYWIDE

**Neighborhood:**

**Voting District:**

		Dept Priority	1	Tier	1
HTE Date	2023-01-24	YTD Balance	4,055,467.52		
Encumbered	715,104.71	Amount Available	3,855,467.52		
Advanced	0.00	Unfunded	200,000.00		

**Project Description** - The projects listed below outline the improvements the bureau proposes to implement. Of the total request, \$1,400,000 will be used to leverage over \$12,000,000 in grants/private partnership opportunities that the bureau has been able to successfully identify and secure; The remaining \$100,000 would be used to correct deficiencies, improve safety, and further optimize the City's transportation network. To implement measures to improve safety, mobility, and quality of life in residential areas and areas of high pedestrian use. Each year the Bureau identifies or received requests for roadway modifications and improvements. Current requests/identifications, include: Glenbrook at Church TOD Intersection Improvement (LOTICIP - Design - \$300,000); Bridge Street Corridor Safety Improvements (LOTICIP - Design- \$350,000.00); Forest Street between Bedford and Greyrock Place Intersection Improvements (PPP Grant - Construction - \$350,000.00); Stillwater Road at Palmers Hill Road Intersection Improvements (CMAQ - Construction- \$400,000.00).

<b>Advanced</b>	0.00	<b>Unfunded</b>			

**Project Description** - West Main Street RAISE Grant Matching Funds of \$3.5 Million - (Design)- (\$1,400,000.00); The City of Stamford secured a \$2.1 million in U.S. Department of Transportation (DOT) Rebuilding American Infrastructure with Sustainability and Equity (RAISE) grant program funding to support the \$3.5 million West Main Street (U.S. Route 1) Corridor Planning Project. This project design will help Stamford (a majority - minority community) prepare for infrastructure improvements that will improve circulation, enhance pedestrian and biking opportunities, decrease vehicle miles traveled (VMT), reduce crashes, promote economic development, curb greenhouse gas emissions, and provide equitable transportation access. The project limits are Route 1 Corridor between Greenwich Avenue in the east end to Havemeyer Lane in the west end. The City's commitment of \$1.4 million will assist in securing Federal and/ or State construction funds over \$25 million to complete the project soon after completion of the design.

**Comments** - For capital improvements to the City's 211 Traffic Signals. With the second largest city-owned traffic signal system in the State, the Bureau is responsible for keeping a good state of repair and constantly updating our signal system to improve safety and decrease congestion. These requests support State and Federal Grants that the department obtained. Each year the bureau identifies various funding opportunities to leverage investment in the City's transportation network. The sources of this years funding is from State and Federal grants, as well as Development contributions by way of the Bureau's thorough review of site plans. We continue to work with WestCOG and the City's lobbyist to identify other sources. The CMAQ Project H Traffic Signal Upgrade, (Construction- \$750,000.00) will be included in FY24/25

**Project Description** - The Department works closely with the Mayor's ADA advisory council on ADA issues in the City and this funding request is a direct result of this partnership. Specifically, this is part of the City's Federal Legal Mandate for a citywide inventory of sidewalks and pedestrian ramps for ADA compliance. Many municipalities across the nation have been involved in multi-million dollar lawsuits related to the lack of ADA compliance of sidewalks. This will be a citywide inventory of sidewalks and pedestrian ramps to develop a list of locations to be reconstructed in the future and help shield the City from potential lawsuits

**Comments** - The current 25 year old 1997 Parker 21ft. Center console Outboard has a cracked transom due to age and wear and tear. The cost to repair is more than the boat is worth and would not be sea worthy as a patrol / rescue boat. Requesting to upgrade to a police specific patrol / rescue boat. UPDATE: The current prices / quotes for patrol rescue boats have increased to the \$450,000 range since this project request was first proposed. This would possibly require using the approved funding earmarked for item # 2 - Command truck upgrades. Note: quoted prices for the required retrofits have also increased. 2.) The current Police Command Vehicle was purchased in 2006. The vehicle itself is in good mechanical repair, however, the electronics, radios, computers, cameras, and other technology are now 15 years outdated. The interior workspaces are worn and need to be replaced as well. UPDATE: Quoted prices for required upgrades / retrofits have increased. Orig. \$100,000 used to offset price increases for Patrol Boat. Additional \$100,00 requested for Command Truck upgrades based on current (Oct. 2022) quotes. (3.) Police SRT Equipment Vehicle requested to transport the large amount of rescue, de-escalation, protection, and safety equipment used by the team when responding to barricaded subjects, possible active shooters, high risk search warrants, etc. Currently it is difficult and inefficient trying to transport the large amount of required equipment in the same vehicles as the personnel themselves of other vehicles not suited for equipment transport.

Advanced	7,796.57	Unfunded	442,203.43		

**Project Description** - We are utilizing an apparatus replacement schedule where front line vehicles are in service for approximately ten years. Once an apparatus is removed from front line service it is utilized as reserve for additional years. Fire apparatus approaching or exceeding 15 to 20 years of age, corrosion, metal fatigue and crystallization in concealed areas can result in serious consequences. For this reason we are prioritizing this request as 1. We are requesting \$1,500,000 to replace two engines and \$200,000 to refurb the public safety command vehicle.

**Project Description** - The water company is replacing and improving several water mains throughout the city. As they replace the water mains we replace the old hydrants connected to the old mains. Funds will be used to maintain all hydrants and replace damaged and/or inoperable fire hydrants to assure water supply. Also add new hydrants for new water mains added to system. The construction portion of these ongoing obligations are: digging out existing plumbing and hydrants, road, and sidewalk repairs to restore to previous condition. We have met with the water company and created a priority replacement that is currently being done.

**Project Description** - For the purchase of Turn Out Gear for all Stamford Firefighters, Career. Per the CBA, each member receives new gear every 5 years. Turn out gear in this regard includes coat, pants. NFPA standard 1871 requires the retirement of this equipment within 10 years of the date of manufacturer, best practice is for each firefighter to be issued 2 sets of Turn out gear to allow for repair and decontamination of each. The hazards related to cancer and contaminates that are retained within the gear is becoming clearer through studies every year. The entire department has better than 260 members required to have turn out gear.

## 1303 001303 COLLECTION SYSTEM STAFF BUILDING

**Agency:** 0033 Special Revenue: Water Pollution Control  
**Contact:** Bill Brink - (203)-977-5809 - WBrink@StamfordCT.gov  
**Location:** WASTEWATER TREATMENT PLANT  
**Neighborhood:** **Voting District:**

		Dept Priority	1	Tier	1
HTE Date		YTD Balance			
Encumbered		Amount Available			
Advanced	0.00	Unfunded			

**Project Description** - Funding will be used for a new building to house the collection system staff.

Detailed Project Cost		Justification for Inclusion in Capital Plan
Design Development	\$0	<input checked="" type="checkbox"/> Cost Savings
Construction Related	\$450,000	<input checked="" type="checkbox"/> Life Safety
Equipment Acquisition	\$0	<input checked="" type="checkbox"/> Continues On-Going Project
Miscellaneous Costs	\$0	<input type="checkbox"/> Leverages Other Funds
Professional Services	\$0	<input checked="" type="checkbox"/> Infrastructure
Land Acquisition	\$0	<input checked="" type="checkbox"/> Quality of Life
Art Work	\$0	<input checked="" type="checkbox"/> Plan Related
<b>FY 23/24 Total</b>	<b>\$450,000</b>	<input type="checkbox"/> Public Safety Health
		<input checked="" type="checkbox"/> Mandated Legal
		<input type="checkbox"/> Positive Revenue Impact
		<input type="checkbox"/> Positive Operational Impact/Efficiency
		<input type="checkbox"/> Other

Method Used in Estimating Cost:	Estimated change in annual operating cost:
	\$0

Request		FY 23/24					Capital Forecasts						
Funding Source	Term	Dept	Planning	Mayor	BOF	Adopted	FY 24/25	FY 25/26	FY 26/27	FY 27/28	FY 28/29	FY 29/30	Total
WPCA Reserve Fund		450,000	450,000	0	0	0	0	0	0	0	0	0	450,000
		450,000	450,000	0	0	0	0	0	0	0	0	0	450,000

**Comments** - Funding will be used for a new building to house the collection system staff. The building they currently occupy is a metal building from the 1940s that has a major roof leak. It is not feasible to fix the roof. This would provide a new building for the collection system staff (12 people).
