## **Narrative: Proposed Text Change to Amend Section 1 - General Provisions**

**01/18/2023**

### **1. Purpose of the Proposed Text Amendment**

The City of Stamford Zoning Board proposes to Amend Section 1 of the Zoning Regulations by moving all general provisions – i.e. provisions that apply to all districts or that define general powers of the Land Use Boards and the Zoning Enforcement Officer to Section 1 of the regulations. Currently, they are distributed across various sections of the regulations. This would simplify use of the regulations and make the Regulations more accessible to the general public.

### **2. Proposed Amendments**

The following changes are proposed:

- a. “Section 1 Purpose” will be renamed to “Section 1 General Provisions”. Current Section 1 would become Section “1.A. Purpose” (no changes proposed except for the renumbering)
- b. New Section 1.B. “Zoning Districts Established” would incorporate the “List of Zoning Districts”, currently contained in Section 4.A., and the provisions for the interpretation of Zoning District boundary lines currently contained in Section 4.C.1. In addition to reorganization and minor language changes it would delete a provision establishing the same zoning districts for land that is created by fill as for the adjacent upland. As all land below the coastal jurisdiction line is under State jurisdiction this provision is an overreach of local authority.
- c. Provisions from current Section 7.A. that require compliance of all development with the applicable district regulations would be moved to new Section 1.B.3. Section 1.B.4. is a new provision that clarifies that all development must not only comply with the bulk regulations but also conform to the use regulations of the respective district. Current Section 2.B would be renamed to Section 1.B.5. This section defines the relationship between zoning regulations and private land use regulations. No changes are proposed, except for the renumbering. Current Section 4.C.3., which is duplicative to current Section 2.B would be deleted.
- d. Section 4.C.2., which allows access to commercial and industrial uses through certain residential districts would be deleted as it is inconsistent with the residential district regulations.
- e. The requirement that all development in design districts require site and architectural plan approval pursuant to Section 19.D. would be moved from current Section 9.T. to new Section 1.B.6. Exceptions for certain design districts would be deleted.
- f. Current regulations concerning the enforcement of the Zoning Regulations, the powers of the Zoning Enforcement Officer, the powers of the Zoning Board of Appeals, provisions for variances, regulations for amending the zoning regulations, the validity and the effective dates

of the Zoning regulations would be moved from sections 16, 19, 18, 20, 21, and 22 respectively to Sections 1.C through 1.H., except for renumbering and amending section headers, no substantive changes are proposed.
