**LEGAL NOTICE  
ZONING BOARD – CITY OF STAMFORD**

**Application 223-18-** Notice is hereby given that the Zoning Board of the City of Stamford, CT will conduct a Public Hearing on Monday, July 31, 2023 at 6:30pm through a web and phone meeting to consider the application of the City of Stamford Zoning Board for a Text change to create a separate Section for General Development Plans in the Zoning Regulations with uniform requirements across different uses and districts and to simplify application procedures.

**Proposed Text Amendment to Add Section 19.J., General Development Plans, and Related Provisions**

**ADD Section 19.J. “General Development Plans”**

**19.J. GENERAL DEVELOPMENT PLANS (GDP)**

**19.J.1. Purpose**

General Development Plans (GDPs) are required to establish the potential massing and maximum bulk of the anticipated *Development*, such as maximum *Building Height, Density and Coverage*. In addition, a GDP approval may cover other aspects of the *Development* which the applicant wishes to propose.

A goal of *GDPs* is to assess and, if necessary, mitigate anticipated development impacts and to assure that individual components of the development will form a cohesive whole and are well incorporated into the existing built environment. A *GDP* is also intended to provide approval to property owners on how a property can be developed.

**19.J.2. Applicability**

a. *General Development Plans* shall be required as follows:

- (1) Where Final Site and Architectural Plan approval is required but is not yet sought for the entirety of the *Development* or *Redevelopment* (for example, a multi-*Building* or phased *Development*);
- (2) As required by these Regulations for particular uses; or

- (3) Where a GDP is not required an applicant may apply for GDP approval in conjunction with (a) zoning map or text changes, or (b) with large scale development projects.

### **19.J.3. Standards**

All General Development Plan applications shall, at a minimum, contain the following:

- a. **Application fee**, as established by the applicable fee schedule.
- b. **Written Application**. Written application on a Land Use Bureau form with a project narrative. The narrative shall include a description of the intended manner of the site development or redevelopment, including the types of uses and the size, densities and coverages of the principal Structures and facilities to be constructed, the number of curb cuts and parking requirements, and an analysis of Zoning conformance and compliance, and a list of other agency permits required. The application shall list on an exhibit each of the items (e.g., bulk, density, coverage) for which GDP approval is sought; items listed elsewhere, such as on a zoning data chart, shall not be deemed requested.
- c. **Existing Conditions Map**. A survey prepared by a surveyor licensed in Connecticut showing the location, boundaries, dimensions and acreage of the site, the location and dimensions of existing Buildings and Structures, existing uses of Structures and land areas, existing site utilities and vehicle access, information describing land elevations, flood hazards, coastal and natural resource areas, and information regarding Structures, uses and street elevations within 500 feet of the site.
- d. **General Site Development Plan**. A preliminary development plan drawn at a scale of not less than one inch = 30 feet, showing the proposed location, dimensions, floor area and uses of Structures and Buildings, and the proposed location and area of principal land uses and facilities, existing and proposed land contours, the general location of landscaped areas, Parking Areas, vehicle access, public access amenities and easements. Information addressing the conformance and compliance with these Regulations, including applicable Zoning District standards, shall be shown in tabular form and any intended subdivisions of the site shall be indicated. The goal is to define the maximum extent of the proposed development and establish site-specific development limitations.
- e. **General Architectural Plans**. Preliminary architectural drawings including massings, generalized floor plans and other descriptive information. The goal is to define the maximum extent of the proposed Development and Redevelopment, and to establish site specific development limitations.
- f. **Utilities Report**. Preliminary plans and written reports prepared by a qualified professional engineer specifying the means by which sewage disposal, water supply, stormwater disposal, traffic and access requirements, and related infrastructure and services will be provided for the proposed Development or Redevelopment. The level of information, data, and scope of

analysis shall be sufficient to demonstrate compliance with the requirements of these Regulations and the standards and criteria of other government agencies having separate jurisdiction. Where feasibility of the proposed *Development* or *Redevelopment* depends upon off-site improvements in infrastructure systems, a suitable improvement plan and binding agreement shall be provided.

- g. **Schedule of Improvements.** A proposed timetable shall be provided indicating the completion of major site improvements, the establishment of uses, and the general sequence of construction.
- h. **Additional Information.** The Zoning Board or Land Use Bureau may request additional information for the comprehensive review of a *GDP*.

#### **19.J.4. Review Procedures**

- a. **Procedures.** All *General Development Plan* applications shall be reviewed pursuant to the standards and procedures for *Site and Architectural Plans* in Section 19.D. of these Regulations, including, but not limited to a public hearing. (A *General Development Plan* application or approval is not a Site Plan or Final Site Plan application or approval.)
- b. **Modifications of Previously Approved General Development Plans.** Modification of a previously approved *GDP* shall be subject to Administrative Review and approval by the Zoning Board, pursuant to Section 19.H. of these Regulations. Modifications to *GDPs* not meeting the requirements of Section 19.H. shall require submission of a new application for *GDP* approval.
- c. **Site and Architectural Plan Approvals Required.** All *Development* or *Redevelopment* proposed pursuant to a *GDP* shall require subsequent Site and Architectural Plan review and approval pursuant to Section 19.D. of these Regulations.
- d. The Zoning Board may, in its sole discretion, impose conditions or other requirements on its approval of a *GDP*.

#### **19.J.5. Term of Approval and Applicability of Zoning Regulations**

- a. **Term of Approval.** Unless specified differently in the Conditions of Approval for the *GDP*, *GDPs* shall be valid for a period of five (5) years (the “original approval period”) from the effective date of the approval. The Zoning Board, at its sole discretion, may administratively extend a *GDP* up to two (2) times for no more than five (5) years for each extension. When all extensions are exhausted a new application shall be required pursuant to this Section.
- b. **Applicability of Zoning Regulations.** The Zoning Regulations and zoning district standards in effect on the effective date of the original *GDP* approval shall apply (i.e., be “grandfathered”), for the items, and only for such items, specifically listed as approved in the

GDP approval (e.g., height, coverage, density) if Final Site and Architectural Plan approval for part or all of the Development covered by the GDP is granted within the original approval period.

For Developments that have not secured Final Site and Architectural Plan approval within the original approval period but have received valid and timely extensions of the GDP approval, the Zoning Board may, by Special Permit, apply the Zoning Regulations in effect at the time of the original approval but only for the items specifically listed in the GDP approval, if it finds that:

- (1) the application for Special Permit was filed prior to expiration of the GDP extension;
- (2) adhering to the new Regulations would be an undue hardship; and
- (3) applying the Zoning Regulations in effect on the original date of the GDP approval would not have an adverse impact on neighboring properties.

In all other instances, where the Zoning Regulations or district standards for the items in the GDP approval have changed after the effective date of the GDP approval, the new Zoning Regulations and district standards shall apply for the project (for both items covered by the GDP approval and items not covered by the GDP approval).

- c. The GDP approval shall include a list of each of the approved items. Any item not specifically listed on such list in the GDP approval shall be deemed not approved and may not be considered “grandfathered”.

#### **19.J.6. Modification of General Development Plans**

The modification of General Development Plans approved under this Section shall be subject to the requirements of Sections 19.J.3. and 19.J.4, except as follows:

- a. Any Minor Modification meeting the requirements of Section 19.H. may be approved by Administrative Approval; and
- b. Any modification which will result in no change, or in a decrease from what was previously approved (where the requirement is governed by a maximum amount) or increase (where the requirement is governed by a minimum amount), and which change is de minimis as determined by the Land Use Bureau, may be approved by the Land Use Bureau without Administrative Approval.

#### **AMEND Section 3.B. Definitions by adding a definition for “General Development Plan (GDP)”**

##### **General Development Plan (GDP)**

A General Development Plan (GDP) is an approval granted by the Zoning Board pursuant to Section 19.J. of these Regulations that outlines the development of certain projects in order to
