March 8, 2019

Members of the Board of Finance
Members of the Board of Representatives
Citizens of the City of Stamford

In accordance with Section C8-30-2 of the City Charter, please accept this submission of my recommended Capital Budget for Fiscal Year 2019 – 2020 along with recommendations for funding over the next six years. This budget authorizes \$93,345,539 in proposed project authorizations this year. Approximately \$82.9M of this year's budget will be funded by General Obligation Bonds and roughly \$10M from other revenue sources.

In December of 2018, the Director of Administration Michael Handler recommended to the Board of Finance a safe debt limit of \$100M over the next two fiscal years. It is our intention to issue \$60M in bonds, focusing primarily on projects that will address the issues in our schools (District Wide Building Envelope and Mechanical System Renovation). Because of the importance of these school projects, many of which have not yet been precisely costed, there has been a significant reduction in the preliminary capital recommendations given by the Planning Board. We have given priority to projects that can leverage additional funding from other sources.

Capital continues to be constrained to vital projects needed for the city. Our Highways department is receiving funding for road paving that was deferred in the past due to budget cuts. Our schools are receiving substantial capital project funding to renovate building envelopes and other mechanical systems — this work will directly address mold remediation. Upkeep on our city's infrastructure and renovations to our schools are essential to maintain our residents' quality of life. The costs of these projects cannot be deferred to future budgets.

The \$93,345,539 capital budget request is divided by categories:

Category Breakdown:

Education	\$65,000,000
- District Wide Building Envelope and Mechanical System Renovation	\$60,000,000
- Districtwide technology	\$1,500,000
- Fixed Construction	\$950,000
- Modular Construction	\$650,000
- Other	\$1,900,000
Stormwater Management	\$125,000
- Reconstruction of Stormwater Waste Debris Drop-off Station	\$125,000
Traffic & Road Maintenance	\$5,491,302
- Street Patch & Resurfacing	\$3,991,302
- Citywide Sidewalk Reconstruction	\$550,000
- Other	\$950,000
Director of Administration	\$134,737
- Affordable Housing Linkage Program	\$134,737
Engineering	\$4,650,000
- West Main Street Bridge replacement	\$2,000,000
- West Beach Boat Ramp replacement	\$1,440,000
- Major bridge repairs and design	\$510,000
- Other	\$700,000
Traffic Engineering	\$3,390,000
- Roadway design and reconstruction	\$3,300,000
- Summer Street Corridor	\$90,000
Facilities & Parks	\$2,080,000
- Terry Conners Rink upgrades	\$300,000
- John Bocuzzi Park	\$255,000
- Heating System replacement	\$250,000
- Other	\$1,275,000
Office of Public Safety, Health & Welfare	\$1,105,000
- Fire Apparatus	\$800,000

- Other	\$305,000
Technology, Equipment & Vehicles	\$2,354,500
- Citywide vehicle replacement & upgrades	\$800,000
- Citywide equipment replacement & upgrades	\$600,000
- Public Safety equipment replacement & upgrades	\$500,000
- Technology replacement & upgrades	\$454,500
Self-Supporting	\$7,365,000
- Parking Garage improvements	\$2,000,000
- Citywide dredging	\$1,500,000
- Replacement of Plant Water & RAS Pumps	\$1,500,000
- Other	\$2,365,000
Outside Agencies	\$1,650,000
- Bartlett Arboretum Greenhouse	\$1,000,000
- Other	\$650,000
Totals	\$93,345,539

FISCAL YEAR 2019 / 2020 CAPITAL BUDGET

		90,000	0	0	0	0	200,000	0	0	0	0	0	290,000

Comments - This project will generate return on investment through year-round usage (expanded rental use and additional revenue-producing events) as well as a reduction in costs associated with existing fundraising expenses (tents, generators, lighting, temporary flooring, etc.). Request also includes an additional \$30,000 for relocating conduit and propane tank). *The Bartlett Arboretum Association intends to fundraise all additional amounts beyond this request during Capital Campaign.

Location: 115 Vine Road Stamford CT 06903
Neighborhood: Turn of River - Newfield **Voting District:** 16

		Dept Priority	1	Tier	2
HTE Date	2019-03-04	YTD Balance	100,000.00		
Encumbered	0.00	Amount Available	100,000.00		
Advanced	0.00	Unfunded	0.00		

Project Description - To undertake a modernization of the Bennett Branch which over the project life will provide the nearly 20 year old facility with spaces requested/needed by current library users: flexible meeting/conference rooms; makerspace and technology learning spaces; alternative program space for youth and adults. Appropriate furnishings will be included. The modernization would be done within the current building envelope. The master plan would also include code review and an examination of MEP systems. Necessary upgrades to the mechanical systems may be part of the plan. Grant funds (through the state library and others) may be available to leverage city funds. (Flooring replacement will be funded through private donations.)

Encumbered	0.00	Amount Available	179,920.05		
Advanced	0.00	Unfunded	523,000.00		

Project Description - The existing capital funds will largely address the distressed the exterior condition of the building, identified in the Building Envelope Study completed in August 2012, particularly waterproofing of critical façade and roof areas. Bid documents for the facade waterproofing will be released in the fall of 2018; bid documents for roof repairs are being developed. Further work on the exterior is necessary, like other façade elevations and roof areas, as well as further restoration of the historic building. Grants (like from SHPO) will be used to leverage city funds to the extent possible.

Project Description - The Observatory will be redesigned into a new Astronomy & Physical Science Center, bringing our astronomy and planetarium programs together in one building at the current location on the north end of our property. This re-design (which is now in concept) brings ADA compliance and enriched science and astronomy programs as a major addition to the SM&NC signature education programs which will translate to a key school and community desination for the City of Stamford.

Project Description - The Department of Economic along with the Economic Development commission will undertake a 5 year strategic plan for Economic Development in the city. The study will provide a competitive assessment of the City as a “product” in the highly competitive economic development marketplace in the northeast. This study element will include the identification of target clusters and industry sectors that should form the basis of the City’s business development efforts over the next three to five years

Project Description - Phase II The Team will also develop the “Innovate Stamford” website that will be the go-to digital platform for news, community engagement, and will feature companies located within the district. The platform will allow for the Stamford’s district to highlight up to date with focused information on an events calendar, transit locator, social media stream, blog, links to innovation resources, job opportunities, and successes in the district. The will link to the other innovation designated cities within Connecticut to help the encouragement and development of the Start-up/ Entrepreneurial scene and the cross connections between the cities. This project is matched dollar for dollar from the \$2 million Innovatation District Grant from CT Next that was awarded to Innovate Stamford.

Project Description - Phase II A GIG WiFi connection is faster than the average residential WiFi experience. As an example, a typical 2 hour high-def video takes 30 seconds to download instead of 20 minutes. By offering a public WiFi connection at key locations in Stamford, the Innovation District be developing a resource for the data intensive future needs of residents, visitors and the City itself. The City will look to expand on the already built Infrastructure. The project leverages dollar for dollar match from the \$2million Innovate Stamford Grant from CT Next

Advanced	0.00	Unfunded	0.00		

Project Description - Conversion of the remaining roadway lighting fixtures (over 6,450 fixtures) within the city to LED street lights. The lower wattage 50 and 70watt high pressure sodium fixtures have not been upgraded to LED light fixtures due to the continuous efficiency improvement of new LED products. Manufacturers have just released products which are now as low as 14-39 watts to replace these lights. In addition to saving energy, with the longer life of LED products, maintenance cost will also be decreased.

Project Description - Superstorm Sandy and other weather events have demonstrated the vulnerability in particular of coastal communities like Stamford. Effects from climate change, such as rising sea levels and potentially more severe weather events only increase these vulnerabilities. Stamford's Master Plan (Policy 7P) and the 2016 Hazard Mitigation Plan outline strategies and projects that can successfully reduce vulnerabilities, however, little has been done to implement these Plans. As initial steps for implementation the following tasks are proposed: Task 1: Mapping [\$150,000] The goal of this task is to identify areas and where repetitive loss of property has occurred and map public infrastructure vulnerable to hazards. Task 2: Greenway Infrastructure Analysis [\$50,000] Fallen trees are a major hazard in itself, disrupt power sully and delay the deployment of emergency personnel. A tree inventory would facilitate preventative tree maintenance thus greatly reducing the impact of fallen trees and the resulting cost. For instance, for just one storm, Hurricane Irene, 479 public trees were lost and hit power lines - at a cost of \$272,000. Both tasks can leverage additional funds in the future, such as FEMA Hazard Mitigation Grants. Comments: Task 1: Preliminary design and cost estimates shall be developed for a prioritized list of resiliency projects. The proposal potentially affects critical infrastructure, public amenities, and the almost 2,000 public/private properties that lie within Stamford's Special Flood Hazard Areas. Task 2: The LUB is negotiating with Eversource to share the costs of this project. This project would advance Master Plan 2015 Implementation Strategy 7Q.5 Protect, manage and expand the urban forest..."a first task could be a comprehensive, GIS-based tree inventory for Stamford's urban forest done by a professional firm to be uses as a planning, maintenance and risk assessment too for the City and utility providers!" (MP 183).

Advanced	2,772.74	Unfunded	-2,772.74		

Project Description - Task 1 [\$100,000]: The administration has requested that a master plan be created for the Edward Hunt Complex ("Courtland Park"). We have a preliminary figure for the cost, which is \$52,338. Additional funds should remain available for surveying and plans to support projects in Mianus River Park (ongoing riverbank restoration), Cummings Park (pond restoration study), and Cove Island Park (artificial dune design to accommodate channel dredging requirements). Task 2 [\$100,000]: Master Plan and Zoning Map Amendments. Currently there are six parks that are not in Master Plan Category 14 OPEN SPACE---Parks, and 22 parks that are not zoned P Park District, which leaves these parks potentially vulnerable to development or city selling off as excess properties. If approved, the money would be used to cover the significant cost of public legal postings.

Project Description - In order to implement Master Plan Policy 7L.2-a: Acquisition of vulnerable parcels for open space, flood prone vulnerable parcels, and sensitive lands, the City needs to replenish the fund to acquire parcels. Funds would be used to acquire priority parcels and easements for Mill River Greenbelt and parcels in coastal and wetland areas that are ecologically valuable and or vulnerable to flooding and other hazards. In addition to the acquisition of land, the fund would also cover costs for appraisals, environmental assessment, purchase, demolition and site stabilization.

Project Description - Downtown and South End uses have changed from predominantly commercial office to mixed use, and the different uses create travel demand at different times (office – day/ weekday parking - residential night/ weekend parking. Over the last few years, the City has undertaken a Bus/Shuttle study, bicycle/pedestrian master plan, the Stamford Transportation Center Plan, Route 1 Study, as well as traffic analyses for individual projects as they were proposed to be built. The purpose of this study is to: The goals of this project are as follows to: 1. Assess the traffic strengths, weaknesses, opportunities and threats 2. Assess existing regulations regarding parking, sidewalks, etc. 3. Improve attractiveness and competitiveness of Downtown Stamford and South End neighborhoods

Project Description - Terry Conner's Rink FY 18/19 upgrades have included engineering reports to complete an RFP for a new compressor infrastructure and life safety code issues design work. Bathroom and shower upgrades will be addressed with any FY 18/19 compressor design balance. In FY 19/20 the phase 1 cost of the new compressor room infrastructure will be requested. In 20/21 the phase 11 compressor infrastructure along with and an interior low E ceiling will be requested. In 21/22 a new flat roof to replace the 22 + year old existing patched roof is targeted. In 22/23 a new rink floor. In FY 23/24 the cooling tower will be replaced.

Comments - Per PIHO Outside Engineer's Refrigeration System Report Results & Comments from the Acting Fire Marshal, the following has been put in place- Use of most of the existing \$200k balance FY 18/19 to hire design team to address Phase I and Phase II architectural and Ice Rink Refrigeration System, Safety Systems, & Mechanical Room infrastructure deficiencies affecting life safety of all workers and general public at mass sporting events held at the venue. The RFP is currently being publically solicited for design services firms. FY 19/20 Request for \$500k for construction of Phase I architectural and Ice Rink Refrigeration System, Safety Systems, & Mechanical Room infrastructure deficiencies affecting life safety of all workers and general public at mass sporting events held at the venue. FY 20/21 Request for \$250k for construction of Phase II architectural and Ice Rink Refrigeration System, Safety Systems, & Mechanical Room infrastructure deficiencies affecting life safety of all workers and general public at mass sporting events held at the venue. FY 20/21 Request to add additional \$300k to Phase II to engineer and install the repair/replacement of the refrigerating system serving the HVAC unit to maintain adequate ventilation, heating, cooling, and dehumidification conditions for the interior rink space. Currently HVAC Refrigeration system is non-functional, and creates periodic condensation problems. FY 20/21 Request to add another additional \$100k to the Phase II request (\$650k total) to address the Low-e insulated ceiling material that is failing. FY21/22 Request the cost for a new exterior flat roof \$700k. The City's Energy Manager should investigate the possible addition of Photovoltaic panels to help offset as much as possible of the electrical energy spent trying to maintain space

		200,000	200,000	200,000	0	0	0	0	0	0	0	0	200,000

Comments - FY19-20 Request \$200,000- Balance will be used for New bathroom facility and Merrell Ave parking lot improvements. The current park renovations are being done in partnership with the Boys and Girls Club which is contributing 1 million in design services and construction funding. The current bathroom facilities are in poor condition and require drainage improvements, need to be enlarged and require ADA compliance to adequately meet the demand in the high-use, urban park.

Project Description - To implement measures to improve safety, mobility, and quality of life in residential areas and areas of high pedestrian use. Each year the Department receives requests for roadway modification and improvements. Current request include a traffic circle at Hartswood Rd (\$45,000); Dolphin Cove pedestrian improvements (\$30,000); Design intersection improvements to increase throughput at Stillwater @ Palmer Hill and Palmer Hill @ Westover (\$125,000.); Design and Construct a round-a-bout that conceived in the Stillwater Avenue Corridor Study (\$350,000); Complete the Waterside improvements that consist of a \$750,000. developer contribution for Selleck/ Southfield/Greenwich intersection and a 2.8M grant for Greenwich/Pulaski round-a-bout. To complete the improvement we require funds to convert Greenwich and Davenport to a one- way circulator (\$400,000); Design intersection improvements at Cove/Elm/Shippan (\$30,000); Design roadway improvements to reduce speed an increase multi-modal access on Weed Ave (\$50,000); Rt. 1 Corridor Study Recommended Transportation Improvement at Rt. 1/ Fairfield/ Richmond Hill (\$150,000); Design intersection improvements for Atlantic St. @ Main St (\$75,000); Implement long-term vision of roadway improvements in the south end with particular attention to the vicinity of the Stamford Transportation Center.(2.4M); minor requests to address right-of wqy deficiencies (\$25,000.).

Project Description - Stamford Fire Dept - Engine. Qty 3 at \$600,000 = \$1,800,000 We are utilizing an apparatus replacement schedule where front line vehicles are in service for approximately ten years. Once an apparatus is removed from front line service it is utilized as reserve apparatus for additional years. Our Current Truck 3 is 17 years old and in need of replacent for a cost of \$1.2M. We also need to replace an engine to catch up to our scheduled replacement of engines. Engines are the basic fire department response vehicle, otherwise known as a pumper truck. Currently the city owns 13 front line Engines and 3 reserves. Replacement is also needed in the Stamford Volunteer Fire Companies.

Project Description - The water company is planning to replace and improve several water mains. Funds will be used to maintain all hydrants and replace damaged and/or inoperable fire hydrants to assure water supply. Also add new hydrants for new water mains added to system and dry hydrants where needed. The construction portion of these ongoing obligations are: digging out existing plumbing and hydrants, road, and sidewalk repairs to restore to previous condition. We have met with the water company and created a priority replacement that is currently being done in the westside.

Project Description - To provide upgraded and expanded security systems over the library's network by providing a "mass notification system," an evacuation system in the event of a non-fire emergency (bomb threat, violent intruder, etc.). It is possible that this systems can be received in FY 2019 with some of the existing technology funds. Further plans are being developed to cleanup for the library catalogue. Budgets have been developed and proposals received.
