March 8, 2016

The Members of the Board of Finance
The Members of the Board of Representatives
The Citizens of the City of Stamford

In accordance with Section C8-30-2 of the City Charter, please accept this submission of my recommended Capital Budget for Fiscal Year 2016 – 2017 along with recommendations for funding over the next six years. This budget authorizes \$77,968,740 in proposed project authorizations of which \$38,329,953 will be funded by General Obligation Bonds.

In December of 2015, the Director of Administration recommended a safe debt limit of \$45M to the Board of Finance. This safe debt limit allows the issuance of \$45M of General Obligation Bonds in the 2016/2017 fiscal year, to fund those projects in this year's budget and/or prior authorized projects that are ready to move forward. This leaves approximately \$6.7M of room in the safe debt limit for the City to issue bonds for some of its previously appropriated \$32.4M in capital projects, for which bonds have not yet been issued.

The projects identified in this request address ongoing infrastructure projects and capital technology/equipment/vehicle requirements which are essential to providing a safe environment to the residents and guests of this City. This recommended capital plan continues to invest in our infrastructure which serves to enhance our quality of life and preserve our reputation as a vibrant, safe and attractive City. I urge the elected Boards to consider the value of these projects not only for the present, but for the future as well.

i

Of the gross capital budget request of \$77,968,740 the following is a breakdown by category:

Category Breakdown		Funding Sources	
Education	\$ 3,600,000	City Bonds	\$ 38,329,953
Other	1,595,000	WPCA Bonds	18,775,000
Housing	606,810	State Grants	7,367,577
Traffic Signal Coordination	3,750,000	Federal Grant	5,000,000
Street Improvements	11,600,000	Other	
Major Bridge Repairs	1,700,030	Marina	1,500,000
Public Works	10,425,000	EG Brennan	400,000
Parks/Recreation	2,635,000	Capital Non Recurring	5,189,400
Police Station	14,500,000	Other	1,172,740
Public Safety, Health & Welfare:	2,496,900	Total Other	8,496,210
Tech./Equip./Vehicles	5,060,000		
WPCA	20,000,000		
Total	\$ 77,968,740	Total	\$ 77,968,740

I want to thank the Planning Board for their time and hard work in developing their recommended Capital Budget and the Board of Finance and Board of Representatives for their efforts and diligence in the approval of this budget.

Respectfully Submitted,

David R. Martin

Mayor

0695	Bartlett Arboretum - Capital	Balance: \$78,886.50 as of 12/31/2015	Priority	
CP3804	BARTLETT ARBORETUM SITE AND INFRASTRUCTURE IMPROVEMENTS		Dept	1
			Planning	0

This request includes Safety, Health and Air Quality improvements to our grounds and buildings on infrastructure elements dating back decades: electrical, plumbing, safe drinking water, pedestrian lighting near automobiles, security system for all buildings, building handicapped access, and others. These improvements would bring these facilities into legal compliance and would also allow for year-round use for revenue-generation purposes. Also includes storm damage infrastructure and improvements from Superstorm Sandy. Also includes fencing for deer exclusion from valuable collections.

Reason for Project (if new)

These necessary changes would allow us to bring our facilities into compliance with certain safety, health, construction, and energy saving practices.

These are necessary upgrades to modernize/replace aging infrastructure elements.

695	Bartlett Arboretum - Capital	Balance: \$347,000.00 as of 12/31/2015	Priority	
P3239	BARTLETT ARBORETUM - TIE IN TO CITY WATER SUPPLY		Dept	4
			Planning	0

This is the preferred long-term solution to providing consistent, safe and adequate water supply to the facilities and grounds at the arboretum. With the increased usage inspired by the new Silver Educational Center and the demand for enhanced public display/teaching gardens on the site, it is currently impossible to provide simultaneous supplies for the facilities and necessary irrigation to protect our botanical assets.

Reason for Project (if new)

After recent discussion and review by City personnel, we believe this is the best long-term solution to our variety of water supply, quality, consistency, and accessibility issues on the property to allow us to maximize the public benefit from usage of our buildings and to protect and enhance our investment in unique botanical assets on the property for the next generations. Final price to be determined by actual linear footage and can be mitigated by residential participation along the pipeline.

Comments: This would be the best solution for consistent, safe and adequate water. It would allow for irrigation to our Botanical Gardens which is currently impossible to do simultaneously with supplying water to the new facilities.

\*Additional request: The Arboretum's water infrastructure is out of compliance as a Public Water Supply. Holding/retention tanks are rusted; lines are leaking; water pressure is inadequate. City water tie-in authorization does not cover these expenses.

Reason for Project (if new)

Revenue-Generation through year-round usage and energy conservation to reduce overhead costs.

Boiler is past its useful life; dangerous to work on. These would allow for year-round use and revenue-generating programs, whick would also reduce operating costs.

Reason for Project (if new)

This represents the balance due on an open invoice. Background: Funding was provided in 2012-2013 and 2015-2016 to make Advocate issues rom 1950 to 2005 available from the library's website, in the library and remotely (homes, offices and schools). Funding in 2016-2017 would complete the project, making the full run of The Advocate available online through back to 1830. Future funding would help create digital archives for other historic Stamford records from the library's collection.

Reason for Project (if new)

Part of a multi-year capital plan to address exterior building conditions, continuing in 2016-2017 with roof replacement/repairs, which is intended to begin in 2015-2016 with existing funds. Costs are estimated from 2012 study. Preservation of the 1910 building is planned for 2017-2018, which will include brick repointing and waterproofing, window replacement and repair/replacement of sloped (copper) roof. SHPO grant funds are expected for these projects (50% of cost). For the interior, in 2018-2019, new lighting and boiler replacement will produce greater energy efficiencies and redundancy.

Reason for Project (if new)

Leveraging existing community center facilities would allow for the cost-effective delivery of needed library services to residents in neighborhoods that have difficulty reaching the existing libraries. It is a way to address the geographic inequities of library service pointed our in our 2012 community survey. Funds would be used largely for library furniture and equipment in each of these facilities.

Reason for Project (if new)

The Bennett Branch, open 15 years ago, has suffered from noise issues due to its open space concept (few full height interior walls, high ceilings). Acoustical flooring has been recommended to absorb sound from programming and meetings throughout the building. It would also address the current floor condition. The identified product has a 40 year life, is washable and is "green" (water-based dies/inks, recycled content, low energy manufacturing.).

BOR	0	0	0	0	0	0	0	0	0	0	0	0	0	0	

Reason for Project (if new)

Modernization and upgrade of the building's 2 hydraulic passenger elevators is required for Safety, Code & ADA Compliance. Breakdowns are frequent and can last for days, which unsafe if people have to then use the staircases or share elevators with other tenants.

#### Comments

Each of these 2 elevators serve different occupants - apartments and offices - therefore they both are necessary to be in service. This request is for only 1 of the 2, with the 2nd upgrade scheduled for another year. The apartments are occupied 24/7 and are affordable shelter housing, therefore they are the priority for Code Compliance and safety.

46047	HOUSING DEVELOPMENT FUND		Dept	1
			Planning	0

Capital funding is used to subsidize the acquisition and development of affordable housing. The 2016-17 Capital request is for Charter Oak Communities Lawnhill Terrace 2 (LT2) project which is anticipated to start construction in October 2016. The total cost for Phase II is projected to be \$22M. LT2 will rehabilitate 58 units (15 - up to 25% AMI, 24 - 25% to 50% AMI, 19 - 50% to 60% AMI). Work to include items such as kitchen, bathroom, heating system rehabilitation, exterior upgrades and site improvements. 6 units will be made fully handicapped accessible. Capital funds leverage other development funding by a more than a 10:1 ratio.

Reason for Project (if new)

Regulations for enforceable accessibilty standards

#### FY16-17 Request 250 k

Includes all citywide building that fall with minimum requirements-Adoption of the 2010 Standards also establishes a revised reference point for Title II entities that choose to make structural changes to existing

facilities to meet their program accessibility requirements; and it establishes a similar reference for Title III entities undertaking readily achievable barrier removal

Reason for Project (if new)

safety hazard

FY 16-17 Request will be 1,250,000- Veterans Park is the cornerstone Park in the City, located right in the middle of Downtown Stamford, and has fallen into major disrepair. The City in conjunction with DSSD and other stakeholders is undertaking a park planning study, which should be completed by June 2015. The purpose of this request for 500 k is to implement Phase 1: City portion of infrastructure improvements. These funds will be leveraged by DSSD fundraising of a minimum of one for one to address foreseeable Phase 2 and 3 in future years. Balance of project will be to address CL&P mandated safety hazard to remove manhole to ground level which holds service lines to the area.

262	Operations: Administration - Maintenance Parks	Balance: \$168,591.23 as of 12/31/2015	Priority	,
56139	PLAYGROUND REHABILITATION		Dept	1
			Planning	0

To upgrade citywide playgrounds to meet CPSC/ASTM guidelines and provide shelter at all summer playground program sites. Additional funds will be used to upgrade existing playgrounds to meet current standards. To include Fall Safety Tile surface and pour in place safety surface

Reason for Project (if new)

The current balance is being utilized for the balance of June Road Bridge construction and inspection; City portion of the design and State Administration costs for the West Main Street Bridge; rights-of-way costs for Hunting Ridge Road and Riverbank Road (ConnDOT Br. No. 135011) bridges; Wire Mill Road Bridge design and rights-of-way; and Merriebrook Lane Bridge design completion, construction, and inspection.

Requested funds are for rights-of-way and final design of Cedar Heights Road and Riverbank Road (ConnDOT Br. No. 04071) bridges.

The out-years will be used for the construction and inspection of Wire Mill Road Bridge and any future rehabilitation work, i.e. West Glen Drive, West Broad Street and Lakeside Drive bridges.

Reason for Project (if new)

Current and previous appropriations were for rebuilding collapsed or failing seawall.

Requested funds are required due to an additional wall collapse in the area as well as the making of the reconstructed wall deeper as investigations determined minimal or no embedment of the existing wall below the mud line.

The out-years will be used for the replacement of future wall deterioration/failures.

Stamford shoreline has considerable flooding and shoreline erosion. Project includes several locations within Cove Island Park, and Cumming Park.

0221Operations: Engineering - Traffic EngineeringBalance: \$150,000.00 as of 12/31/2015PriorityCP6763TRAFFIC SIGNAL COORDINATIONDept3Planning0

This is city's commitment to secure \$3,000,000 Federal Grant. This must be available to secure the grants. With out these funds the city will be missing a opportunity to secure the Federal Funds. This project is funded under CMAQ federal program. Project includes Traffic Signal coordination of 205 signals to improve traffic safety, flow and efficiency. In general signals are coordinated every 3 to 5 years. Our signal coordination was done in 2003-04 and there has been a significant growth in the past 10 years with significant changes to traffic patterns and street network use. Signals at 6 intersections will be upgraded.

Reason for Project (if new)

This project will complement Mayor' Street Smart program initiative. Stamford has seen a significant growth in the past 10 years and there are significant changes to traffic patterns and street network use. Travelling public made significant number of complaints regarding traffic signal timing. We are adjusting the timings to improve the traffic flow based on traffic demand in an ad hoc manner, which impacts coordination of signals.

This project will be funded with CMAQ, a Federal Program.

Intersection Locations for Signal Upgrades Improvement with total equipment replacement including video detection and communication are as follows:

- 1 Route 1 (East Main St @ Seaside Av
- 2 Route 1 (West Main St@ Fairfield Av
- 3 Route 1 (West Main St@ Wilson
- 4 Route 1 (West Main St@ Liberty
- 5 North State St. @ Elm
- 6 North State St@ Canal

Reason for Project (if new)

The study is complete & Implementation will follow when the funds are made available.

Funds for Implementaion are being sought through Surface Transportation Program (STP) as High Ridge Road is a State Route.

High Ridge Road Corridor (South of Merritt Parkway) implementation short measures:

Remove pavement Markings and Restripe Travel Lane to 11': \$350,000

Install Curb Separators: \$400,000

ADA Ramps and Pedestrian S Signals and Enhanced crosswalks: \$950,000

Interactive Speed signs: \$100,000

Bus Shelters and landing areas: \$750,000

Reason for Project (if new)

Implement the project with private public partnership.

City is coordinating its efforts to implement the improvements with public private partnership. The requested funds is to specifically to acquire properties to construct the roadway improvements. Estimated construction cost is \$2,500,000. The project will be completed with CYTEC Development cash contribution of \$500,000 & the rest of the funds with STP (federal funds) and/or (LOTCIP State funds).

Reason for Project (if new)

Project is funded under STP with participation of 80% fedral, 10% by State & 10% City of the estimated construction costs \$3,000,000. City's share of 10% was appropriated in FY 15/16 budget (previous year capital program).

The project funds are identified in the State Transportation Improvement Program, and in State Capital Program. This will be administered by the city and therefore reimbursed after periodic completion of elements of the project.

This is included in the Statewide Transportation Improvement Program (STIP) reflecting AVAILABILITY OF FEDERAL FUNDING to complete the project.

Reason for Project (if new)

Possibility of securing grants

Possibility of the construction being funded with federal and/or state funds. This project would orient pedestrian crossing especially at signalized intersections realigning ramps perpendicular to the crosswalks and place the tack tiles parallel to the crosswalks to improve visually impaired pedestrian safety. Future year requests will expand the improvements to all intersections with crosswalks.

Also, this will complement Traffic Calming implementation.

Reason for Project (if new)

To develop design for at least few school areas to seek federal funding toward implementation. There is a significant increase in funding availability toward Safe Routes to School Program. The city would be able to secure Federal Funding under The Transportation Alternatives Program (TAP) specifically toward construction when the planning and design is completed and ready for construction. TAP replaces Safe Routes to School funding category.

Reason for Project (if new)

Develop concepts to secure federal and state funding in future through CTDOT Local Transportation Capital Improvements Program (LOTCIP); or other funding programs or to construct with city funds. Under LOTCIP design cost will be 100% by the city; where as 100% ROW costs and 100% low bid; 10% of low bid for incidentals & 10% of low bid for contingencies; plus 100% Construction Administration costs by LOTCIP. This year request will be used to develop concepts for Glenbrook Road @ Hamilton Avenue; Hamilton Avenue @ Culloden Road; Future Projects include the following: Hope Street between Glendale Drive and Douglas Avenue; Hope Street @ Church Street/Pine Hill Avenue; East Main Street Between Glenbrook & Crystal Street; East Main Street between Lincoln Avenue and Courtland Avenue; etc.,

A few years ago Light Rail Transit study was completed. Since Street Cars are appropriate for the type of operating, a new project has been created. The street car system will have a loop starting at south end area traveling north on Atlantic Street, Bedford Street to Bulls Head area and back to South End area through Summer Street and Atlantic Street. Significant federal funds are available for such systems, and a street car system will be an asset to the city. New street cars are quieter.

Reason for Project (if new)

The City of Stamford is the region's largest city with a population of over 125,000 and growing, especially in the Downtown and South End where over 7,000 housing units are—either under construction, have been built or have been approved—which will drastically change these areas (as well as adjacent neighborhoods such as the West Side, Cove and East Side) to a younger, more walkable or bicycle riding demographic area. The City has undertaken transportation projects such as West Side Transportation Study which ties in with the Mill River Park Trail Plan, and Glenbrook/Springdale Transit Oriented Development Study etc., have identified the need to develop safe, walkable and bicycling conditions for a growing community.

			Planning	0
496	The Glenbrook Springdale Transit-Oriented Development (TOD) Feasibility Study identified a number	of important public improvement needs in each neight	orhood tha	at

The Glenbrook Springdale Transit-Oriented Development (TOD) Feasibility Study identified a number of important public improvement needs in each neighborhood that would support TOD and allow for more walkable, bike-friendly village centers. These broad principles and conceptual streetscape recommendations were shared with the public in Glenbrook in March 2014 and favorably received.

Glenbrook Road between Scofield Avenue and Church Street requires new sidewalks, amenity strips with trees, lighting, and signage on both sides of the street.

NEW	MILL RIVER GREENWAY - PHASE II		Dept	2
			Planning	0

Mill River Greenway North is a .6-mile greenway connection that will run along the river from Greene Street to Scalzi Park behind Hart Magnet School, Cloonan Middle School and Wright Tech. The project includes new paths, lighting, green infrastructure that will protect water quality, new plantings and an environmental education landscape, outdoor classroom and amphitheater for Hart. It is designed and ready to be built. Its estimated cost is \$2.2 million. The City and Mill River Collaborative are seeking state and private funding that will require a local match.

			Planning	0

Stamford needs to manage public trees proactively for two reasons: Stamford residents love their park, sidewalk, and roadside trees, and storms and lack of management destroy them and create a safety hazard. For instance, during Hurricane Irene alone, 479 public trees were lost and hit power lines - at a cost of \$272,000, for just one storm. An updatable GIS database enables the City to manage the maintenance of the public roads and scheduling the replanting of public trees.

P6807	DOWNTOWN & SOUTH END IMPLEMENTATION STUDY		Dept	4
			Planning	0

#### Downtown & South End Implementation Study, Phase II:

A. Analyze and assess the design, connectivity, and build-out of the current plans for the City's Downtown, such as the thousands of residential units within walking distance to the Stamford Transportation Center are in various stages of construction, including: Parcel 38, Cappelli Rental, 75 Tresser, 66 Summer Street, Harbor Pointe General Development Plan, The Stamford Transportation Center Transit Oriented Development, and Gateway Development proposals. Taken together, the City needs to understand: a) what are the economic and market viability for Downtown and South End?, b) what is the foreseeable timeline for implementation?, c) what are the possibilities for leveraging other funding (Federal and State Grants, public/private partnerships, etc.), d) what is the City's plan for Retaining, Recruiting, and Reengineering in these areas for addressing the current and foreseeable buildings vacancies. B. Analyze vacant and under-utilized parcels, parks, public facilities, and conflicting land uses, especially for future uses, and address the linkages between the Downtown and South End as well as West Side, Waterside, East End and the Cove. C. Update and Revise the Zoning Ordinance to allow for

Reason for Project (if new)

Building on the work from the newly adopted Master Plan that identified the Downtown and the South End as the two areas within Stamford for continued growth and change in the

next 10 years. However, it was beyond the scope and purview of the Master Plan consultants to analyze and recommend specific zoning strategies and other regulatory tools to guide the build-out and stabilization of the South End and Downtown. Phase II of this Study would serve as a twenty to thirty year guide for the City to use in assessing the potential impacts of the proposals on the Downtown at: (1) full build-out capacity, including all development bonuses, build-out as planned, and less-than planned build-out, and (2) in addition, this study would include zoning amendments, design guidelines, historic preservation strategies, assessment of potential uses for any existing vacant and under-utilized parcels, as well as other support uses, e.g., commercial space, residential space (including possibility of either building or converting some high quality rental housing units into condo units), marina's, public parks and open space, public infrastructure, view corridors, etc.

0230	Operations: Land Use - Administration	No Balance	Priority	
NEW	COVE ISLAND PARK ANALYSIS & RENNOVATION	Dept	Dept	1
			Planning	0

This is Stamford's most visited park, and it is in need of a number of upgrades. In particular, the red barn and recreation house are severely damaged, and upgrades are necessary to the bathrooms at the entrance and at the east beach – all need flood-proofing. Design services would also include marina upgrades, landscaping and drainage improvements.

.....

Contraction of service hours - especially at branches which are open only 2.5-4 days per week - means the collection of books and other circulating materials are needlessly out of reach to many of our customers. Vending-style equipment is a reasonable way to address this: place popular materials in dispensing machines accessed with a library card that customers can use 24 hours a day. Initially the devices would be placed outside or accessible vestibules at library facilities.

STFLIB	Short Term Financing - Ferguson Library - Capital	No Balance	Priority	
NEW	LIBRARY FEASIBILITY STUDY		Dept	1
			Planning	0

To development community use and facilities adaptation of: Bennett Branch (opened 15 years ago), South End Branch (renovated 20 years ago), and community center branches which will reflect new needs of the respective neighborhoods they serve (meeting rooms, technology training, smaller program spaces, etc.).

Reason for Project (if new)

Funds for feasibility studies for both Bennett and South End Branches would focus on the new community needs vs. current design/uses in both locations. The project would include designing space reuse, construction, furniture, technology use and energy efficiency (lighting, hvac, etc.). Expect output would include a capital needs assessment for next 10 years. Study would also explore the need for library service in current community centers, as a cost effective to serve certain neighborhoods.

	Stamford Fire Dont	Tankor Truck	1	¢200.000	¢200.000	20 vrs			

 Stamford Fire Dept Tanker Truck 1 \$300,000 \$300,000
 20 yrs.

 Stamford Fire Dept Engine
 4 \$570,000
 \$2,280,000
 10 yrs

We are utilizing an apparatus replacement schedule where front line vehicles are in service for approximately ten years. Once an apparatus is removed from front line service it is utilized as reserve apparatus for additional years.

A Tanker Vehicle is required to ensure water supply to those areas in the City without hydrant water supply. This is a critical piece of apparatus for response to the Northern part of Stamford.

Engines are the basic fire department response vehicle, otherwise known as a pumper truck. Currently the city owns 12 front line Engines and 4 reserves. Replacement Engines are needed for Shippan and Southend both 2004 vintage vehicles and 2 needed to replace an aging volunteer fleet.

Reason for Project (if new)

To adhere to new NFPA safety standard and improve Firefighter safety and effectiveness.

Stamford adopted the current SCBA platform in 1982, at the time it was the safest on the market. These SCBA have been upgraded over the years to comply with latest standards and to maintain the highest level of safety. The majority of our equipment has aged out and can no longer be upgraded. The 2013 edition of the standard governing SCBA has seen a major change requiring much more reserve air. This forces us to either require our members to carry much more weight, something they can't do, or change platforms to a new higher pressure technology. In order to continue with the current platform an expenditure of \$250,000 in the next twelve months to replace equipment that will age out, that replacement equipment will not be compatible with the new platform.

0351	Stamford Fire Department	No Balance	Priority	
NEW	PERSONAL PROTECTION EQUIPMENT (PPE)		Dept	4
			Planning	4

For the purchase of Turn Out Gear for all Stamford Firefighters, Career & Volunteer. Turn out gear in this regard includes coat, pants. NFPA standard 1871 requires the retirement of this equipment within 10 years of the date of manufacturer, best practice is for each firefighter to be issued 2 sets of Turn out gear to allow for repair and decontamination of each. The hazards related to cancer and contaminates that are retained within the gear is becoming clearer through studies every year. Springdale and Long Ridge have not replaced their turn out gear within the last 10 + years. The entire department has better than 330 members required to have turn out gear.

NEW	LUCAS AUTOMATED CPR UNIT		Dept	10
			Planning	0

Lucas automated chest compression unit. This request will allow medical first responder units to provide accurate and continuous automated CPR (chest compressions) to victims in cardiac arrest. These units are curently on three of the career units. In a pre-hospital real use study\*\* the hands-on ratio with manual CPR was on average 78% with manual CPR and 91% with LUCAS CPR- as measured over the entire resuscitation episodes of approx. 33-40 minutes. The hands-on time of manual CPR decreased from 81% on the scene to 73% during transport, whereas LUCAS stayed at the same high hands-on ratio (90-92%) both on scene and during transport.

Reason for Project (if new)

More perimeter HVAC / PTAC units continue to fail. They are NOT worth putting any repair money into.

This is to acquire the additional funding to complete the project.

C43034	MULTI-USE BUILDING CONSTRUCTION		Dept	1
			Planning	0

This continues capital support for SM&NC Phase 1 Farmhouse construction. Recommendation from 2010 Master Plan includes infrastructure improvements and development of a multi-use farmhouse building on Heckscher Farm. Adjustment to North parking lot, perimeter safety, site entry, security improvements, and relocation of Maple Sugar House, will bring greater mission-driven capacity, community service, and safety.

Reason for Project (if new)

As a key destination for school and nature programming, this simple and highly functional, multi-use and classroom space will increase our community partnerships, school alliances, and represent the SM&NC as a model of environmental sustainability through land and water management, and efficient use of energy and materials resources. The SM&NC serves over 190,000 visitors annually.

The SM&NC has secured \$750,000 in State of Conecticut DECD matching funds for 2015. We anticipate further funding in 2016.

0680	Stamford Museum - Capital	No Balance	Priority	,
CP1683	WATER LINE CONNECTION		Dept	2
			Planning	0

The waterline tie-in capital will be needed as part of the SM&NC Phase I Farmhouse construction. Need for water tie-in from Scofieldtown Road on north end to serve the upper most buildings with a gravity feed system. We currently have a poorly engineered water pump system in the flood plain at the front entrance of our property.
