Stamford, CT 06901

**Re: *1600 Summer Street***  
**Zone Map Change application**

Dear Mr. Blessing and Board Members,

As discussed, on behalf Summer Street Equity, LLC (owners), enclosed please find applications and supportive materials to facilitate a Zone Map Change from RM-F and C-L to C-G. Application details are described further in the attached Project Narrative and reflected in the enclosed materials.

In support of the applications, enclosed please find:

1. A check in the amount of \$8,700 for:
  - Zone Change Fee; \$7,700; and
  - Zoning Board Public Hearing Fee: \$1,000.
2. Zoning Map Change Application form:
2. Qualitative Analysis;
3. Aerial Exhibit;
4. Zone Change Exhibit;
5. Zone Change Description;
6. Preliminary Zoning Comparison;
7. Site Demonstration Exhibit;
8. Property Survey; and
9. Letter of Authorization.

Please feel free to contact us with any questions or comments. We look forward to continuing to work with you and the Planning & Zoning Boards.

Sincerely,

Richard W. Redniss, FAICP

**Re: 1600 Summer Street**  
**Zone Map Change application**

Dear Mr. Blessing,

Please let this letter serve as our formal request for members of the consultant team to speak, should the Planning Board have any questions for the applicant at the forthcoming referral meeting on the proposed Zone Map Change application. Please let us know if you have any questions or would like additional information.

Sincerely,

Richard W. Redniss, FAICP

**Qualitative Analysis  
1600 Summer Street  
Zone Map Change  
February 12, 2024**

**1. Summary/Background**

Summer Street Equity, LLC (“Owner and Applicant”), a related entity of Benenson Capital Partners, is seeking to rezone its existing nonconforming split-zoned property at 1600 Summer Street (the “Property”) from the R-MF (Multiple Family Residence Design) and C-L (Limited Business) zones to the C-G (General Commercial) zone.

Benenson has owned the property since 1979 when they constructed the multi-tenant office building. Over the decades, the building has been home to several prominent corporations including GE Capital, AON, and Philips. Consistent with trends in the local and regional office market in recent years, the building is experiencing a high vacancy rate with over 70-80% of the building unoccupied on any given day. While most of the building is technically leased, all leases expire in 2025 and all tenants have communicated that they will not be renewing. Moreover, the Owner has actively marketed the building for over a year and has received no inquiries. This situation is not unique to the Property. With an office vacancy of roughly 35% in the central business district, older buildings cannot compete with their higher-end, newer counterparts.

While the Property has been well-maintained and enjoys an attractive site layout and location, it is need of a significant capital infusion and modernization. However, any meaningful change is challenging with its nonconforming status. Specifically, the Property is out of compliance with several areas of the current Zoning Regulations including Building Height, Building Coverage, Floor Area Ratio, Setbacks, and permitted uses (within the R-MF portion of the property).

A zone change to the C-G will cure nearly all the existing nonconformities and provide much needed flexibility for the building’s unknown future. [Note: The remaining floor area nonconformity could also be alleviated in a future plan by landscaping and/or wrapping the garage with active uses.] Such optionality is critical for the ongoing viability of the Property, which may or may not continue as an office use. Placing the Property in the C-G zone has the dual benefit of creating conformity while permitting a versatile and desirable mix of uses including multi-family residential, medical, educational uses (with or without student housing), a variety of retail and other services uses, as well as the permitted height and bulk which may be necessary to achieve such transformations. This type of flexibility is necessary if the Property is going to be successfully repositioned.

**2. Surrounding Area**

The site lies between two major north/south arteries, Washington Boulevard and Summer Street which connect the Downtown to less intense mixed-use neighborhoods to the north. The Summer Street corridor consists of a mix of both commercial and multi-family residential uses and zoning designations, including R-MF (Multiple Family Residence Design) C-L (Limited Business), MX-D (Mixed Use Development), and C-I (Intermediate Business).

The site lies within the Downtown “neighborhood,” as depicted in Figure 16 of the Master Plan and is mapped as Category 9 (Urban Mixed-Use). Category 9 is meant to “**encourage redevelopment** and to provide an **orderly transition** from the more-intensive Downtown area (Category #11) to adjoining neighborhoods...” Similarly, the C-G zone is generally found proximate to the C-C zone and is considered a less intense, transitional option in and around the Downtown core. Category 9 generally runs along both sides of Summer Street from the Downtown boundary at North Street up to Fourth Street, as well as portions of the East Side, West Side and South End/Harbor Point neighborhoods. Other nearby Master Plan designations include Categories 4 (Residential - Medium Density Multifamily) and 5 (Residential - High Density Multifamily). The property is in walking distance to Ridgeway Shopping Center, Scalzi Park Downtown Stamford and is well served by public transportation and sidewalk networks. The site maintains a Walk Score of 85 “Very Walkable” (per walkscore.com).

### **3. Subject Property and History**

The Benenson Family built, owned, and operated this office building for over 40 years. The overall property is approximately 4.3 acres improved with a 6-story 272,800SF± office building and a 6-story parking garage. The applicant also owns 0.9 acres of open space across Second Street which is not a part of this application. At the time the improvements on the Property were constructed, the C-L zone permitted more intensity of development than it does today. In fact, it was much closer to today’s C-G zone. Additionally, the regulations also allowed a property owner subject to a split-zone to effectively apply the more intense zoning category to the entire property, subject to special exception approval. This tool was utilized for the Property.

The buildings and structures were also approved during a period in which the Zoning Regulations were undergoing major changes, including the introduction of a Floor Area Ratio. Prior to that change, Zoning districts like the C-L simply relied on zoning standards such as coverage, height, and setbacks to determine the appropriate location and massing of buildings. As a result of the permitted and evolving zoning regulations, the development received multiple Special Exception and Variance approvals from the Zoning Board of Appeals. All the foregoing changes contributed to the nonconforming status of the Property today. A zoning comparison analysis is provided herewith.

### **4. State of the Office Market**

While it is common knowledge that our country and our city, in particular, is in the midst of a housing crisis (in that there is not enough housing to meet demand, causing skyrocketing prices), many of us are less familiar with the office crisis. It has been well-documented in Stamford that our suburban office parks are empty and failing. However, our office buildings in and around the Downtown are also floundering, and our situation is not unique. In 2023 U.S. office vacancy surpassed 20% for the first time in decades. In Stamford, the office vacancy has exceeded 30% for years, and these figures only represent spaces that are no longer leased. With many companies still contractually obligated to lease spaces they no longer occupy, the physical vacancy rate is even higher. Many areas are operating at less than 50% of pre-pandemic occupancy. With the rise of video conferencing and increased comfort with remote work options by both workers and employers, those occupancies are not expected to increase anytime soon.

At the same time, landlords are faced with impending loan maturities, and this owner and this asset are no exception. Reports from reputable financial institutions over the last few months have warned of roughly \$1.5 *trillion* of commercial real estate debt that is coming due before the end of 2025. If property owners are not given the tools they need to reposition or refinance their assets, the result could be catastrophic to the economy. Our Master Plan has long identified the need to “[e]ncourage the reconfiguration of existing office and retail space to accommodate market trends and potential new users.”<sup>1</sup> Thus far, Stamford has been slow to implement the type of changes necessary to effectuate this goal, and the time has come for our community to pivot. The proposed zone change is consistent with the Master Plan, and perhaps more importantly, responsive to the systemic office vacancy issues that plague our city today.

## 5. Action Items

To bring the Property closer to conformity and provide the Owner with the tools necessary to reposition the asset, the Applicant has filed an application with the Zoning Board for a Zoning Map Change placing the site in the C-G (General Commercial) zone.

Notably, any meaningful new development on the Property would require a future Large Scale Development Special Permit and Site Plan approval. The enclosed Site Demonstration Exhibits provide several conceptual examples of the types of improvements that could be pursued if the proposed application is approved. These concepts include an adaptive reuse of the existing office building for residential and/or mixed use, the creation of rooftop open space, stepped back upper stories, and wrapping the currently exposed concrete garage structure with active uses. Again, these exhibits are purely conceptual; however, the Applicant believes they illustrate the variety of future uses and improvements that could be pursued under this rezoning if office no longer proves viable.

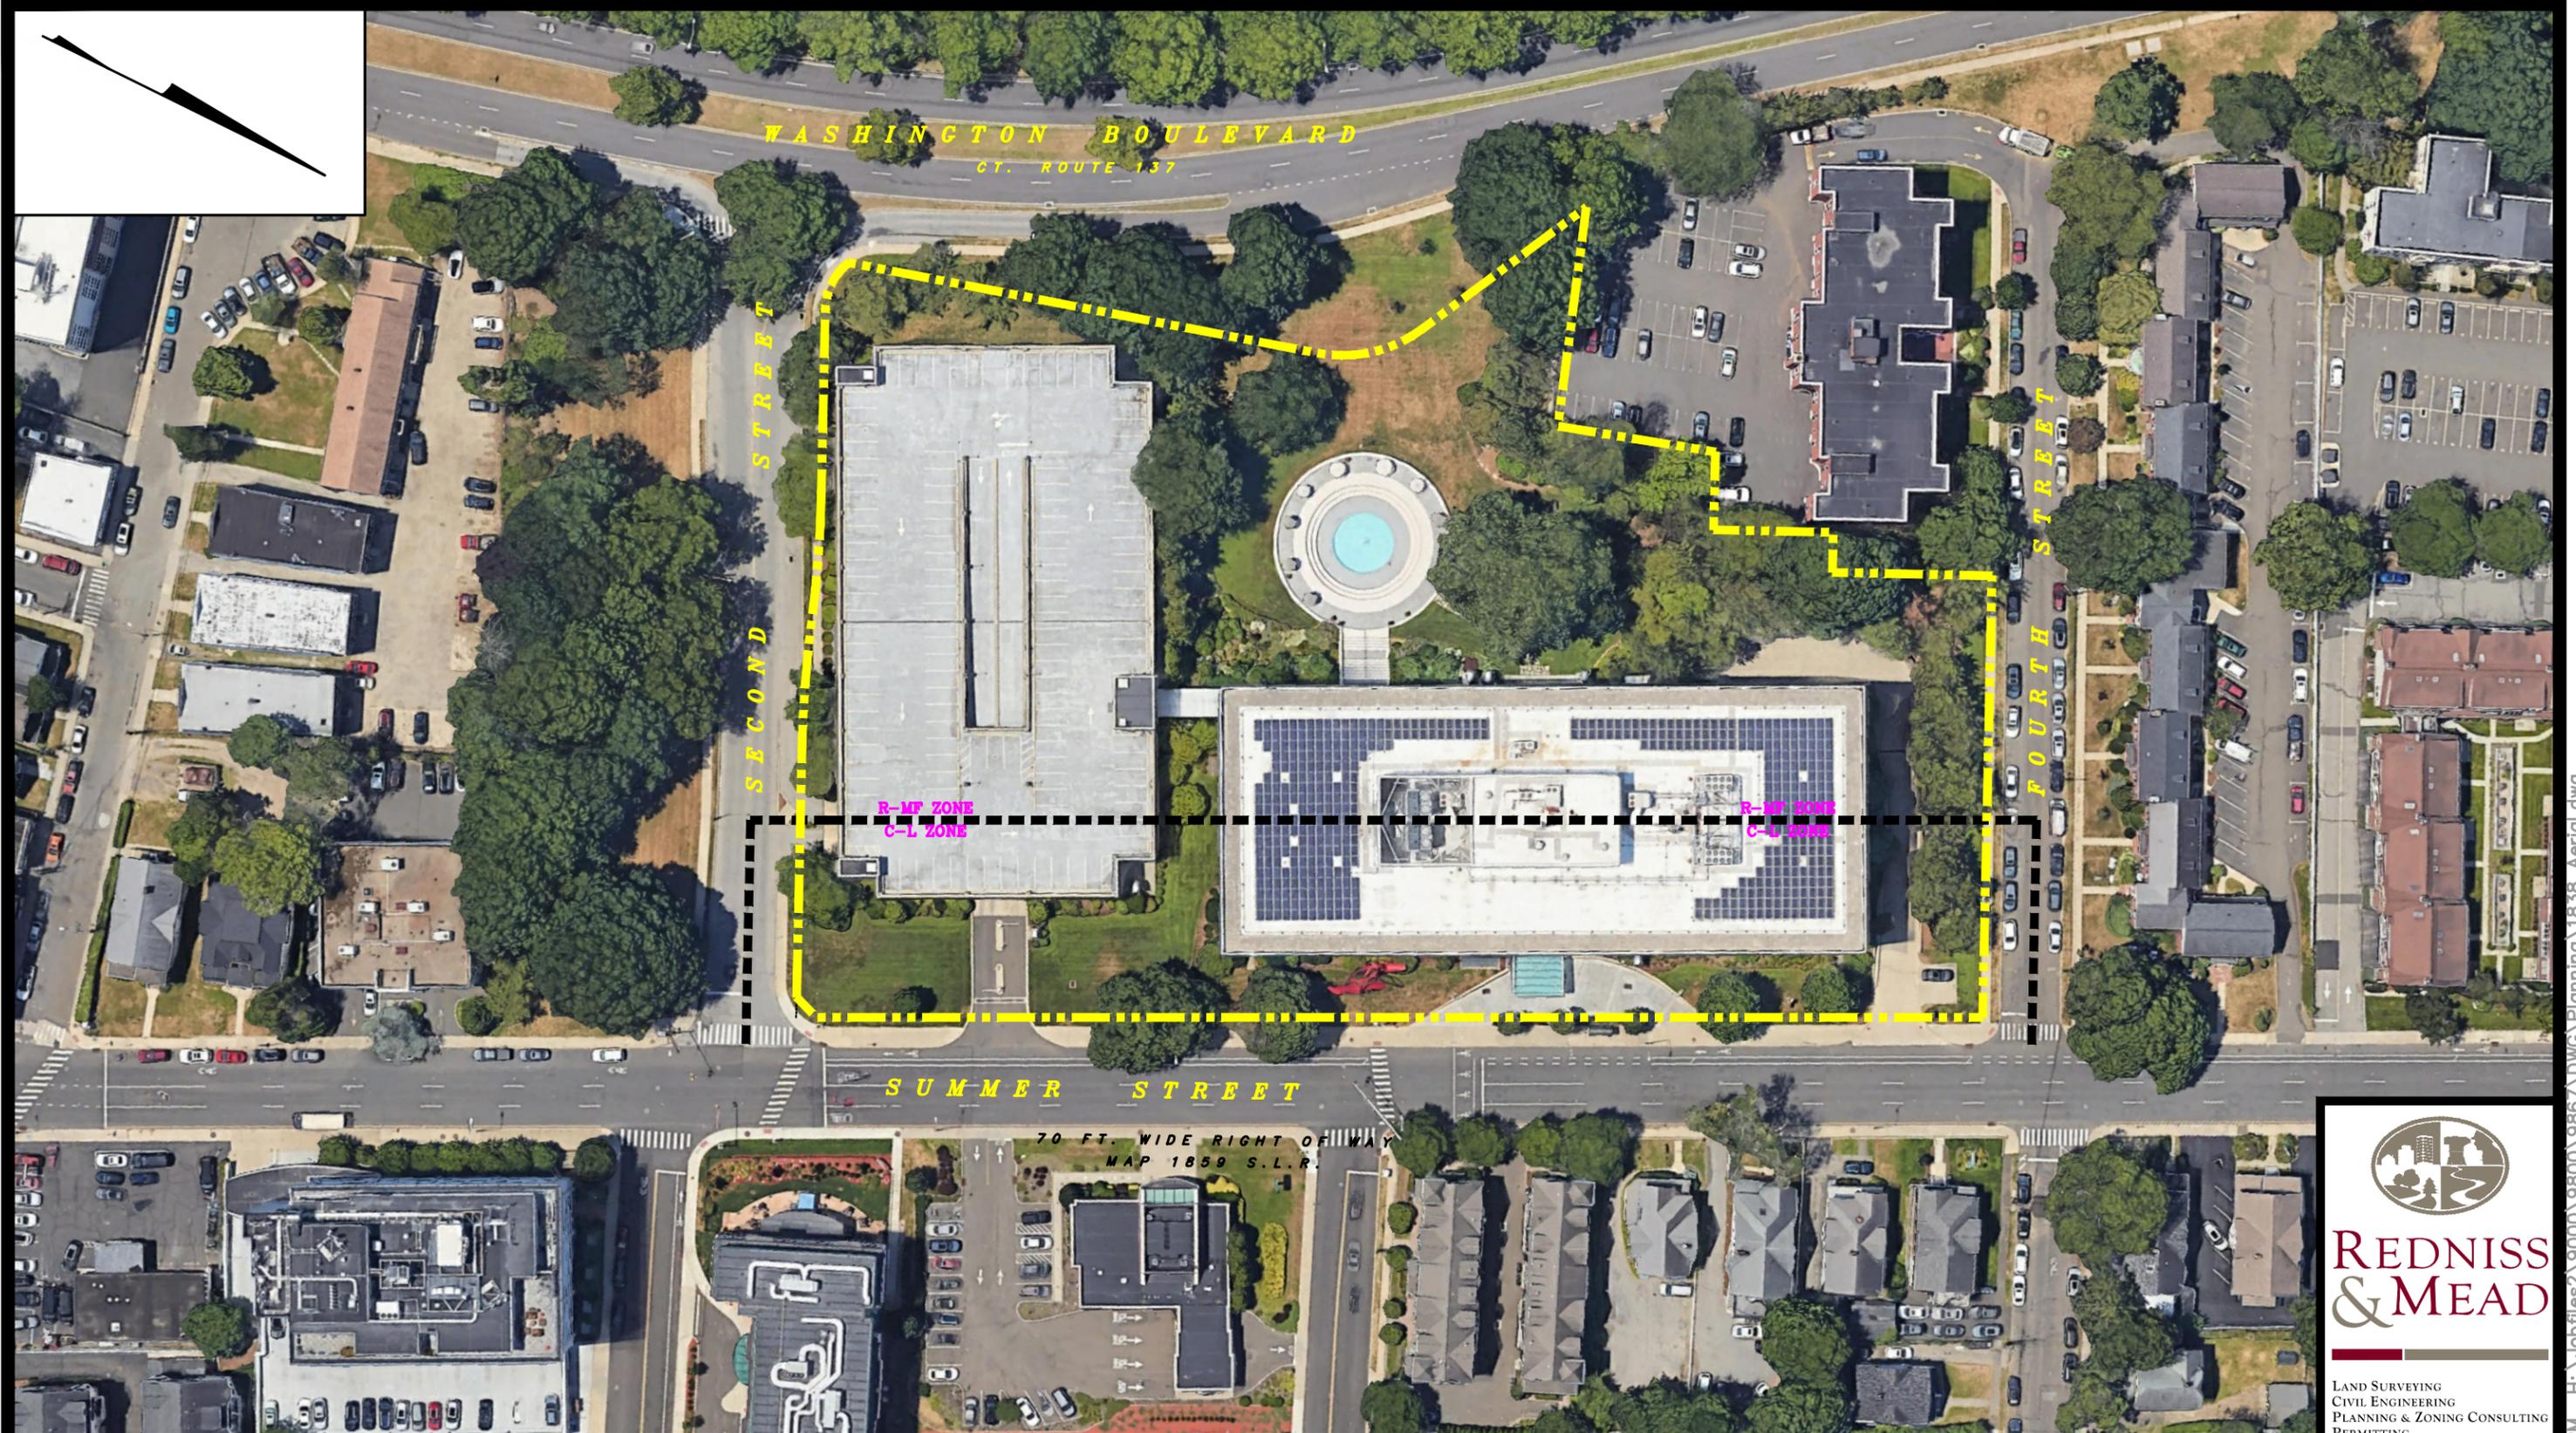

## 6. Conclusions

The proposed Zone Map Change will advance many goals and objectives of the Master Plan, by providing a full array of uses including:

- a) **1.3B1** Amend zoning to allow for redevelopment of office parks outside Downtown for mixed-use
- b) **3A.3** Encourage modernization of office space and allow for adaptive reuse...Capital improvements to enhance technological capability should be pursued and zoning should be amended, as appropriate, to allow for reuse. See Policy 3B.5.
- c) **3B.4** Encourage the reconfiguration of existing office and retail space to accommodate market trends and potential new users.
- d) **3E** Continue to pursue uses that promote vibrancy and economic vitality.
- e) **5E.1:** Promote neighborhood revitalization.
- f) **6C.2:** Promote development of a variety of housing types.
- g) **6C.4:** Continue encouraging conversion of vacant office buildings to residential use.

**Zone Change Description  
1600 Summer Street  
Zone Map Change Application  
February 5, 2024**

Block #: 242

Area: 4.32 Acres  $\pm$  (excludes portions of Summer Street, Second Street, and Fourth Street rights-of-way along site frontage)

DESCRIPTION OF AREA OF ZONE CHANGE FROM RM-F (MULTIPLE FAMILY RESIDENCE DESIGN) AND C-L (LIMITED BUSINESS) TO C-G (GENERAL COMMERCIAL):

Including portions of properties commonly known as 1600 Summer Street (Assessor #000-1395); located in the City of Stamford, and generally described as follows:

Beginning at the intersection of the westerly side of Summer Street and the northerly side of Second Street, said the boundary of the subject land travels as follows:

Northerly: 585'  $\pm$  along the westerly side of Summer Street;

Westerly: 221'  $\pm$  along the southerly side of Fourth Street;

Southerly: 787'  $\pm$  along land n/f of various owners of Edgewater Condominium and land n/f of the City of Stamford each in part;

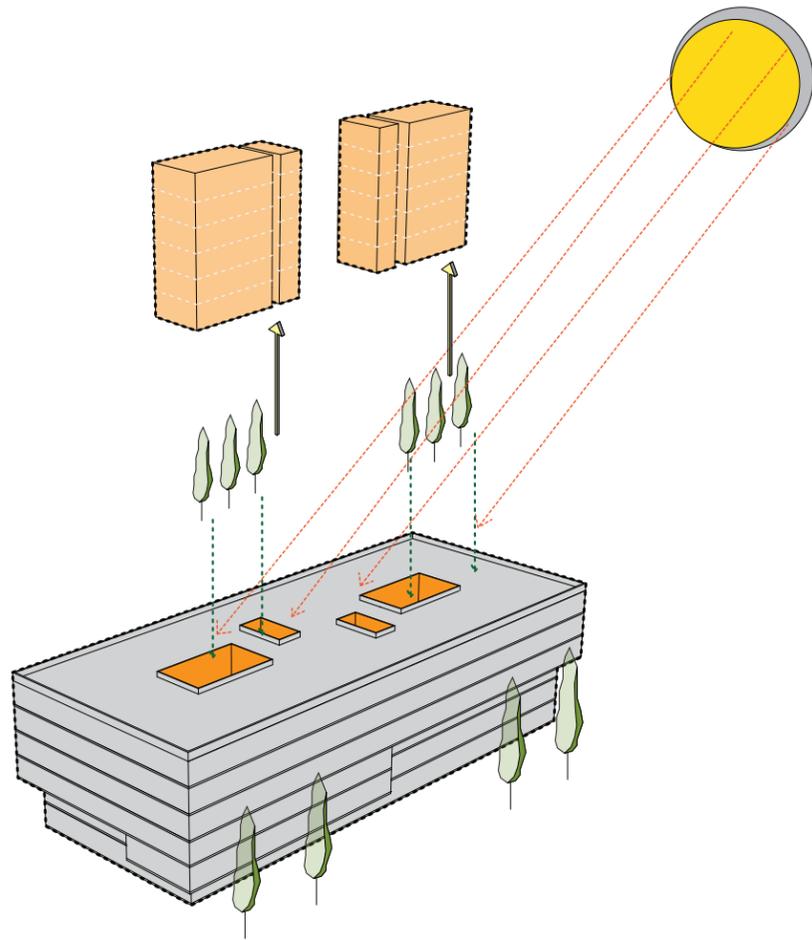

Easterly: 255'  $\pm$  along the northerly side of Second Street to the point of beginning.

## Preliminary Zoning Comparison<sup>1</sup> 1600 Summer Street

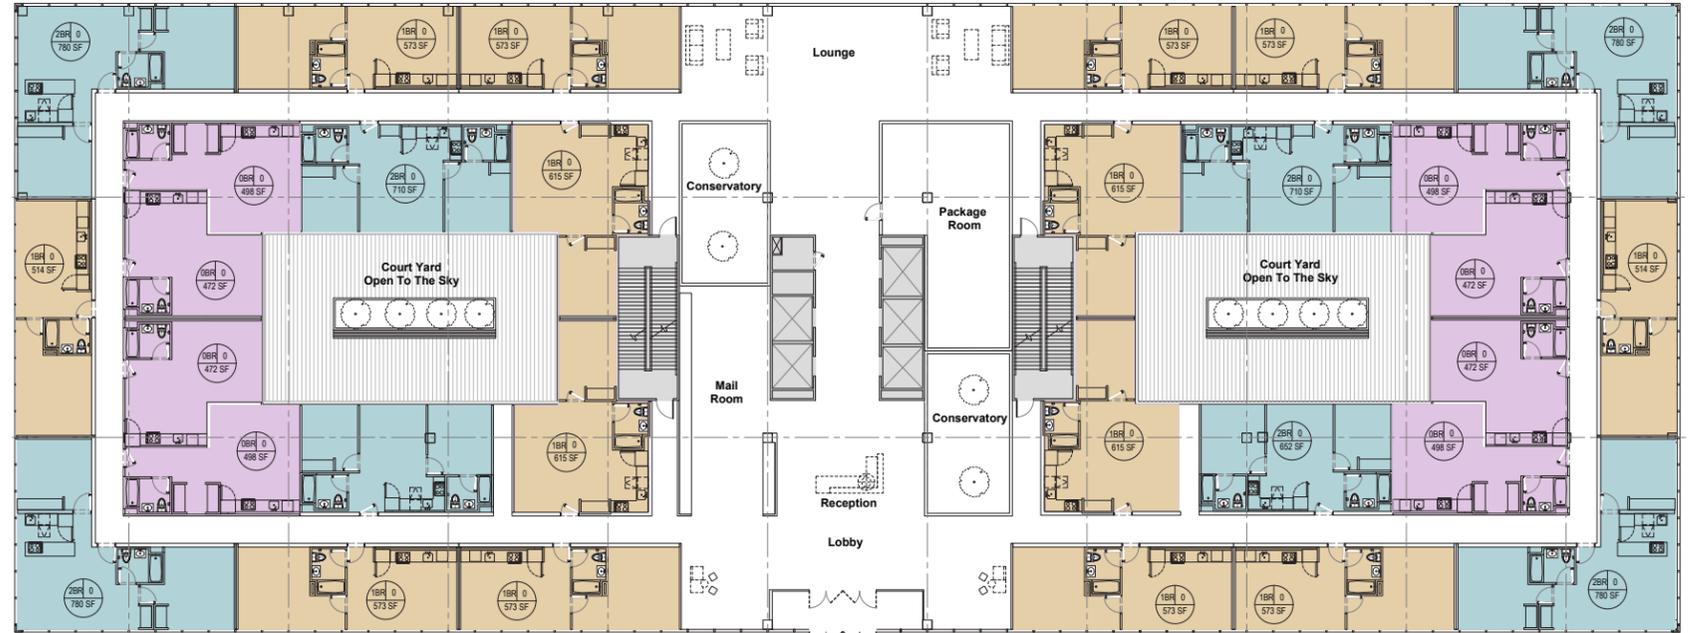

Standard	1970s C-L Permitted	Existing Site <sup>2</sup>	C-G Permitted
<b>Site Area</b>	188,283		
<b>Building Height</b>	75'	75'	100'
<b>Building Coverage</b>	90% 169,455	45% 84,000±	90% 169,455
<b>Floor Area Ratio</b>	6.3 (permitted bulk) <sup>4</sup>	2.33 440,000± <sup>3</sup>	1.8 338,909
<b>Dwelling Units</b>	376 <sup>5</sup>	0 (172 permitted) <sup>6</sup>	188-414 <sup>7</sup>

### Footnotes

1. For simplicity, permitted figures assume entire site is single zone and base standards only
2. Actual site area: 58,610sf CL + 129,673sf R-MF = 188,283sf.
3. Includes approximately 273,000sf office and 167,000sf garage Floor Area which could be exempt in the C-G if properly screened and/or landscaped.
4. 90% Coverage x 7 Stories = 6.3 or 1.2 million sf of bulk (garage + usable floor area)
5. 188,283 ÷ 500 sf per family = 376 DU + commercial uses within permitted bulk
6. C-L (86 units) & R-MF (86 units) permitted
7. Max density is dependent on the amount of commercial rights available for trade-in
