From: Stephen Frycz
Traffic Signal Operations Supervisor

Date: June 3, 2024

RE: Notice of Blue Light Tower
-Scalzi Park (2nd tower)
-Cove Island Park (2nd tower)
-Kiwanis Park

In accordance with the Camera Review Committee's Policies and Procedures, Section 7, please accept this letter as a request from the Transportation, Traffic and Parking Department, for an additional Blue Light Emergency Tower's.

The Parks mentioned above are frequently visited by residents and families throughout the year. We believe that the addition of these Blue Light Tower locations would increase security and create an additional presence at the park. The location of the tower will be based on park usage, topography, and the experience provided by the City of Stamford and the Stamford Police Department.

Blue Light Emergency Towers are installed to improve safety and act as a security precaution in Stamford parks. By having these highly visible, easily accessible phones with cameras, the park goers will be reassured that they can summon police, fire or medical assistance immediately.

We are requesting that this camera would be Surveillance Level 2 (disclosed Public Surveillance Cameras without a Public Feed and without Monitored Surveillance or without pre-authorized Monitored Surveillance less than 8 hours per week)

Thank you for considering this request. If you have any questions, please call me directly at 203-977-5675.
