

PROJECT UPDATE
PERNA LANE AREA SEWER PROJECT
May 31, 2024

Construction has begun on High Ridge Road and Perna Lane. This involves the saw cutting of the pavement for the sewer trench.

Grasso Construction has distributed wooden stakes to each house in the areas they will be working in next. The stakes were placed in the ground in the front of each home. We ask that you move the stake to the location you would like the lateral stub left for your property. The instruction sheet attached should be followed for these stakes. If you did not receive a stake, please call and we will have one delivered to you.

Please remember homes **CANNOT** connect to the new sanitary sewer system until the sewers and pump stations are completed, tested, and accepted. Based on the schedule provided, this will not be before May 2025.

WPCA will have a representative, Dave Toohey, on site full time to observe the construction. If you have any questions, you can ask him at any time.

Updates will be posted weekly on the WPCA website at:

<https://www.stamfordct.gov/government/operations/water-pollution-control-authority/perna-lane-sewer-project/-folder-2132>.

If you have any questions or comments please contact Ann Brown, Supervising Engineer, at (203) 977-5896 or abrown2@stamfordct.gov.

Thank you, in advance, for your cooperation and patience.
