CITY OF STAMFORD
OFFICE OF THE MAYOR

July 1, 2016

Members of the Board of Finance
Members of the Board of Representatives
Members of the Planning Board
Citizens of the City of Stamford

I am pleased to transmit the Adopted Capital Budget for the fiscal year commencing July 1, 2016 and ending June 30, 2017 along with the plan for capital spending over the succeeding six years. This budget represents the culmination of a Capital Budget submission and approval process that started back in August, 2015 and was completed in May, 2016.

This City of Stamford Capital Budget for the fiscal year beginning July 1, 2016, which includes all approved projects for both City departments and outside agencies, calls for \$77,968,740 in total capital spending, of which \$57,104,953 will be financed with tax supported General Obligation Bonds.

I want to thank the Planning Board for their efforts in developing their recommended Capital Budget and both the Board of Finance and Board of Representatives for their review and approval of this final Adopted Capital Budget.

Respectfully Submitted,

David R. Martin
Mayor

Fiscal Year 2016/2017 Capital Budget

0695 Bartlett Arboretum - Capital
CP3804 BARTLETT ARBORETUM SITE AND INFRASTRUCTURE IMPROVEMENTS

Balance: \$68,899.62 as of 4/30/2016

Priority	
Dept	1
Planning	0

348 This request includes Safety, Health and Air Quality improvements to our grounds and buildings on infrastructure elements dating back decades: electrical, plumbing, safe drinking water, pedestrian lighting near automobiles, security system for all buildings, building handicapped access, and others. These improvements would bring these facilities into legal compliance and would also allow for year-round use for revenue-generation purposes. Also includes storm damage infrastructure and improvements from Superstorm Sandy. Also includes fencing for deer exclusion from valuable collections.

Reason for Project (if new) These necessary changes would allow us to bring our facilities into compliance with certain safety, health, construction, and energy saving practices.

These are necessary upgrades to modernize/replace aging infrastructure elements.

Fiscal Year 2016/2017 Capital Budget

0695 Bartlett Arboretum - Capital

CP3239 BARTLETT ARBORETUM - TIE IN TO CITY WATER SUPPLY

Balance: \$347,000.00 as of 4/30/2016

Priority

Dept 4

Planning 0

347 This is the preferred long-term solution to providing consistent, safe and adequate water supply to the facilities and grounds at the arboretum. With the increased usage inspired by the new Silver Educational Center and the demand for enhanced public display/teaching gardens on the site, it is currently impossible to provide simultaneous supplies for the facilities and necessary irrigation to protect our botanical assets.

BOR	0	0	0	0	0	0	0	50,000	50,000	50,000	0	0	0	150,000

Reason for Project (if new) After recent discussion and review by City personnel, we believe this is the best long-term solution to our variety of water supply, quality, consistency, and accessibility issues on the property to allow us to maximize the public benefit from usage of our buildings and to protect and enhance our investment in unique botanical assets on the property for the next generations. Final price to be determined by actual linear footage and can be mitigated by residential participation along the pipeline.

Comments: This would be the best solution for consistent, safe and adequate water. It would allow for irrigation to our Botanical Gardens which is currently impossible to do simultaneously with supplying water to the new facilities.

*Additional request: The Arboretum's water infrastructure is out of compliance as a Public Water Supply. Holding/retention tanks are rusted; lines are leaking; water pressure is inadequate. City water tie-in authorization does not cover these expenses.

Fiscal Year 2016/2017 Capital Budget

Reason for Project (if new)

This represents the balance due on an open invoice. Background: Funding was provided in 2012-2013 and 2015-2016 to make Advocate issues from 1950 to 2005 available from the library's website, in the library and remotely (homes, offices and schools). Funding in 2016-2017 would complete the project, making the full run of The Advocate available online through back to 1830. Future funding would help create digital archives for other historic Stamford records from the library's collection.

BOR	0	0	0	0	0	0	0	312,000	450,000	0	0	0	0	762,000

Reason for Project (if new)

Part of a multi-year capital plan to address exterior building conditions, continuing in 2016-2017 with roof replacement/repairs, which is intended to begin in 2015-2016 with existing funds. Costs are estimated from 2012 study. Preservation of the 1910 building is planned for 2017-2018, which will include brick repointing and waterproofing, window replacement and repair/replacement of sloped (copper) roof. SHPO grant funds are expected for these projects (50% of cost). For the interior, in 2018-2019, new lighting and boiler replacement will produce greater energy efficiencies and redundancy.

BOR	0	0	0	0	0	0	0	100,000	100,000	100,000	0	0	0	300,000

Reason for Project (if new)

Leveraging existing community center facilities would allow for the cost-effective delivery of needed library services to residents in neighborhoods that have difficulty reaching the existing libraries. It is a way to address the geographic inequities of library service pointed out in our 2012 community survey. Funds would be used largely for library furniture and equipment in each of these facilities.

BOR	0	0	0	0	0	0	0	0	0	0	0	0	0	0

Reason for Project (if new)

The Bennett Branch, open 15 years ago, has suffered from noise issues due to its open space concept (few full height interior walls, high ceilings). Acoustical flooring has been recommended to absorb sound from programming and meetings throughout the building. It would also address the current floor condition. The identified product has a 40 year life, is washable and is "green" (water-based dyes/inks, recycled content, low energy manufacturing.).

Reason for Project (if new) Modernization and upgrade of the building's 2 hydraulic passenger elevators is required for Safety, Code & ADA Compliance. Breakdowns are frequent and can last for days, which unsafe if people have to then use the staircases or share elevators with other tenants.

Comments
 Each of these 2 elevators serve different occupants - apartments and offices - therefore they both are necessary to be in service. This request is for only 1 of the 2, with the 2nd upgrade scheduled for another year. The apartments are occupied 24/7 and are affordable shelter housing, therefore they are the priority for Code Compliance and safety.

Fiscal Year 2016/2017 Capital Budget

Fiscal Year 2016/2017 Capital Budget

0501 Office of the Mayor - Community Development
C46047 HOUSING DEVELOPMENT FUND

Balance: \$2,655,702.45 as of 4/30/2016

Priority

Dept	1
Planning	0

14 Capital funding is used to subsidize the acquisition and development of affordable housing. The 2016-17 Capital request is for Charter Oak Communities Lawnhill Terrace 2 (LT2) project which is anticipated to start construction in October 2016. The total cost for Phase II is projected to be \$22M. LT2 will rehabilitate 58 units (15 - up to 25% AMI, 24 - 25% to 50% AMI, 19 - 50% to 60% AMI). Work to include items such as kitchen, bathroom, heating system rehabilitation, exterior upgrades and site improvements. 6 units will be made fully handicapped accessible. Capital funds leverage other development funding by a more than a 10:1 ratio.

Reason for Project (if new) Supports development of affordable housing beyond the 10% required by the City's Inclusionary Zoning.

The current balance is allocated to four projects: Merrell Avenue Greenfield (45 apartments), 992 Summer Street (48 apartments), Metro Green III (73 apartments) and 215 Park (47 apartments). The 211 affordable units in these four developments will provide housing for low income Stamford households.

545 The Stamford Energy Improvement District (EID) and the City are developing a microgrid (MG) at Stamford's Government Center (SGC) and Improvements to energy efficacy and resiliency to City's shelters Rippowam, Westhill and AITE and support adjacent housing authority buildings 24/7, even if CL&P's electric grid is down. The MG will be developed as part of an Energy Savings Performance Contract (ESPC) that will guarantee energy savings at schools and SGC at no up-front cost to the City. The City will pursue other sources of financial support (e.g., a DEEP microgrid grant). This project will improve Stamford's energy security and resilience; solve SGC power and cooling problems that interfere with 911 emergency communications; improve schools' energy and water efficiency; cut energy costs and emissions; and improve local grid reliability for public safety and economic development.

Reason for Project (if new) safety hazard

FY 16-17 Request will be 1,250,000- Veterans Park is the cornerstone Park in the City, located right in the middle of Downtown Stamford, and has fallen into major disrepair. The City in conjunction with DSSD and other stakeholders is undertaking a park planning study, which should be completed by June 2015. The purpose of this request for 500 k is to implement Phase 1: City portion of infrastructure improvements. These funds will be leveraged by DSSD fundraising of a minimum of one for one to address foreseeable Phase 2 and 3 in future years. Balance of project will be to address CL&P mandated safety hazard to remove manhole to ground level which holds service lines to the area.

Reason for Project (if new)

The current balance will not be adequate to fund the replacement of West Main Street Bridge. Requested funds are for the City's share of the balance of estimated construction and inspection costs.

Grant funds were appropriated in prior years: \$1.35M in CP0034, and \$690K in C56753.

The out-years will be used to fund the replacement of construction and inspection of Cedar Heights Road and Riverbank Road (ConnDOT Br. No. 04071) bridges and Hunting Ridge Road and Riverbank Road (ConnDOT Br. No. 135011) bridges.

Reason for Project (if new)

The current balance is being utilized for the balance of June Road Bridge construction and inspection; City portion of the design and State Administration costs for the West Main Street Bridge; rights-of-way costs for Hunting Ridge Road and Riverbank Road (ConnDOT Br. No. 135011) bridges; Wire Mill Road Bridge design and rights-of-way; and Merriebrook Lane Bridge design completion, construction, and inspection.

Requested funds are for rights-of-way and final design of Cedar Heights Road and Riverbank Road (ConnDOT Br. No. 04071) bridges.

The out-years will be used for the construction and inspection of Wire Mill Road Bridge and any future rehabilitation work, i.e. West Glen Drive, West Broad Street and Lakeside Drive bridges.

Reason for Project (if new)

Current and previous appropriations were for rebuilding collapsed or failing seawall.

Requested funds are required due to an additional wall collapse in the area as well as the making of the reconstructed wall deeper as investigations determined minimal or no embedment of the existing wall below the mud line.

The out-years will be used for the replacement of future wall deterioration/failures.

Reason for Project (if new)

This road has deteriorated to a point where normal overlay procedures will not sufficiently improve its condition and therefore are not cost effective solutions. A new drainage design is needed to improve and protect roadway pavement. Additionally the roadway needs to be realigned.

CP6763 TRAFFIC SIGNAL COORDINATION

Balance: \$150,000.00 as of 4/30/2016		Priority	
		Dept	3
		Planning	0

477 This is city's commitment to secure \$3,000,000 Federal Grant. This must be available to secure the grants. With out these funds the city will be missing a opportunity to secure the Federal Funds. This project is funded under CMAQ federal program. Project includes Traffic Signal coordination of 205 signals to improve traffic safety, flow and efficiency. In general signals are coordinated every 3 to 5 years. Our signal coordination was done in 2003-04 and there has been a significant growth in the past 10 years with significant changes to traffic patterns and street network use. Signals at 6 intersections will be upgraded.

Reason for Project (if new) This project will complement Mayor' Street Smart program initiative. Stamford has seen a significant growth in the past 10 years and there are significant changes to traffic patterns and street network use. Travelling public made significant number of complaints regarding traffic signal timing. We are adjusting the timings to improve the traffic flow based on traffic demand in an ad hoc manner, which impacts coordination of signals.

This project will be funded with CMAQ, a Federal Program.

Intersection Locations for Signal Upgrades Improvement with total equipment replacement including video detection and communication are as follows:

Reason for Project (if new)

The requested funds to be used for replacing signal equipment at the following list of locations including signal controllers, detection equipment replacement, signal wiring etc., depending on the limits of the funding availability: Shippan Avenue @ Magee Avenue; Shippan Avenue @ Wallace; Fairfield Avenue @ Selleck Street; Wilson Street @ Baxter Avenue; Seaside Avenue @ Webb Avenue; East Main Street @ Blachley Road; Main Street @ Summer Street; a new signal @ High Ridge Road @ Bradley Place

Replace Traffic Signal Controller Cabinets that are 10 years or older to satisfy current requirements.

CP6804 STAMFORD STREET SMART INITIATIVES

Balance: \$100,000.00 as of 4/30/2016

Priority

Dept	8
Planning	0

479 To reconstruct pedestrian ramps to address numerous complaints from visually impaired pedestrians regarding the orientation of ramps and positioning of tack tiles. Current ramp configuration compromises visually impaired pedestrian safety. This project is to orient visually impaired pedestrian direction of travel at designated crossing especially at signalized intersections to realign ramps and place the tack tiles parallel to the crosswalks to improve pedestrian safety.

Reason for Project (if new) Possibility of securing grants

Possibility of the construction being funded with federal and/or state funds. This project would orient pedestrian crossing especially at signalized intersections realigning ramps perpendicular to the crosswalks and place the tack tiles parallel to the crosswalks to improve visually impaired pedestrian safety. Future year requests will expand the improvements to all intersections with crosswalks.

Also, this will complement Traffic Calming implementation.

BOR	0	0	0	0	0	0	0	12,500,000	0	0	0	0	0	12,500,000

Reason for Project (if new)

The project is needed to implement the increase in the Springdale Train Station Parking spaces by acquiring a piece of land on the east side of railroad tracks as identified in the Springdale/Glenbrook Transit Oriented Development study. State DOT will fund the procurement of the land. Also, State DOT will implement the improvements to Railroad Gates to conform to current standards to improve safety. City's contribution toward this project is the Largo Drive roadway improvements on either side of RR tracks.

Reason for Project (if new)

Reconstruction of Atlantic Street between Station Place and Walter Wheeler Drive. This project is expected to receive state grants and/or outside contribution. City will be executing the project. Possibility of securing significant federal funds with 30% matching funds through public/private partnership.

Fiscal Year 2016/2017 Capital Budget

0221 **Operations: Engineering - Traffic Engineering**
NEW **STREET CAR SYSTEM**

No Balance		Priority
		Dept 32
		Planning 0

399 A few years ago Light Rail Transit study was completed. Since Street Cars are appropriate for the type of operating, a new project has been created. The street car system will have a loop starting at south end area traveling north on Atlantic Street, Bedford Street to Bulls Head area and back to South End area through Summer Street and Atlantic Street. Significant federal funds are available for such systems, and a street car system will be an asset to the city. New street cars are quieter.

Reason for Project (if new)

The City of Stamford is the region's largest city with a population of over 125,000 and growing, especially in the Downtown and South End where over 7,000 housing units are—either under construction, have been built or have been approved—which will drastically change these areas (as well as adjacent neighborhoods such as the West Side, Cove and East Side) to a younger, more walkable or bicycle riding demographic area. The City has undertaken transportation projects such as West Side Transportation Study which ties in with the Mill River Park Trail Plan, and Glenbrook/Springdale Transit Oriented Development Study etc., have identified the need to develop safe, walkable and bicycling conditions for a growing community.

0221 Operations: Engineering - Traffic Engineering

NEW GLENBROOK ROAD TRANSIT-ORIENTED DEVELOPMENT

No Balance

Priority

Dept	20
Planning	0

496 The Glenbrook Springdale Transit-Oriented Development (TOD) Feasibility Study identified a number of important public improvement needs in each neighborhood that would support TOD and allow for more walkable, bike-friendly village centers. These broad principles and conceptual streetscape recommendations were shared with the public in Glenbrook in March 2014 and favorably received.

Glenbrook Road between Scofield Avenue and Church Street requires new sidewalks, amenity strips with trees, lighting, and signage on both sides of the street.

		Planning 0

533 Mill River Greenway North is a .6-mile greenway connection that will run along the river from Greene Street to Scalzi Park behind Hart Magnet School, Cloonan Middle School and Wright Tech. The project includes new paths, lighting, green infrastructure that will protect water quality, new plantings and an environmental education landscape, outdoor classroom and amphitheater for Hart. It is designed and ready to be built. Its estimated cost is \$2.2 million. The City and Mill River Collaborative are seeking state and private funding that will require a local match.

404 Stamford needs to manage public trees proactively for two reasons: Stamford residents love their park, sidewalk, and roadside trees, and storms and lack of management destroy them and create a safety hazard. For instance, during Hurricane Irene alone, 479 public trees were lost and hit power lines - at a cost of \$272,000, for just one storm. An updatable GIS database enables the City to manage the maintenance of the public roads and scheduling the replanting of public trees.

CP6807 DOWNTOWN & SOUTH END IMPLEMENTATION STUDY

Balance: \$100,000.00 as of 4/30/2016		Priority	
		Dept	4
		Planning	0

417 Downtown & South End Implementation Study, Phase II:
 A. Analyze and assess the design, connectivity, and build-out of the current plans for the City's Downtown, such as the thousands of residential units within walking distance to the Stamford Transportation Center are in various stages of construction, including: Parcel 38, Cappelli Rental, 75 Tresser, 66 Summer Street, Harbor Pointe General Development Plan, The Stamford Transportation Center Transit Oriented Development, and Gateway Development proposals. Taken together, the City needs to understand: a) what are the economic and market viability for Downtown and South End?, b) what is the foreseeable timeline for implementation?, c) what are the possibilities for leveraging other funding (Federal and State Grants, public/private partnerships, etc.), d) what is the City's plan for Retaining, Recruiting, and Reengineering in these areas for addressing the current and foreseeable buildings vacancies. B. Analyze vacant and under-utilized parcels, parks, public facilities, and conflicting land uses, especially for future uses, and address the linkages between the Downtown and South End as well as West Side, Waterside, East End and the Cove. C. Update and Revise the Zoning Ordinance to allow for

Reason for Project (if new)

Building on the work from the newly adopted Master Plan that identified the Downtown and the South End as the two areas within Stamford for continued growth and change in the next 10 years. However, it was beyond the scope and purview of the Master Plan consultants to analyze and recommend specific zoning strategies and other regulatory tools to guide the build-out and stabilization of the South End and Downtown. Phase II of this Study would serve as a twenty to thirty year guide for the City to use in assessing the potential

Fiscal Year 2016/2017 Capital Budget

impacts of the proposals on the Downtown at: (1) full build-out capacity, including all development bonuses, build-out as planned, and less-than planned build-out, and (2) in addition, this study would include zoning amendments, design guidelines, historic preservation strategies, assessment of potential uses for any existing vacant and under-utilized parcels, as well as other support uses, e.g., commercial space, residential space (including possibility of either building or converting some high quality rental housing units into condo units), marina's, public parks and open space, public infrastructure, view corridors, etc.

508 This is Stamford's most visited park, and it is in need of a number of upgrades. In particular, the red barn and recreation house are severely damaged, and upgrades are necessary to the bathrooms at the entrance and at the east beach – all need flood-proofing. Design services would also include marina upgrades, landscaping and drainage improvements.

BOF	0	0	0	0	0	0	0	50,000	50,000	0	0	0	0	100,000
BOR	0	0	0	0	0	0	0	50,000	50,000	0	0	0	0	100,000

Reason for Project (if new)

Contraction of service hours - especially at branches which are open only 2.5-4 days per week - means the collection of books and other circulating materials are needlessly out of reach to many of our customers. Vending-style equipment is a reasonable way to address this: place popular materials in dispensing machines accessed with a library card that customers can use 24 hours a day. Initially the devices would be placed outside or accessible vestibules at library facilities.

Fiscal Year 2016/2017 Capital Budget

STFLIB Short Term Financing - Ferguson Library - Capital
NEW LIBRARY FEASIBILITY STUDY

No Balance		Priority
		Dept 1
		Planning 0

111 To development community use and facilities adaptation of: Bennett Branch (opened 15 years ago), South End Branch (renovated 20 years ago), and community center branches which will reflect new needs of the respective neighborhoods they serve (meeting rooms, technology training, smaller program spaces, etc.).

BOF	0	0	0	0	0	0	0	0	0	0	0	0	0	0
BOR	0	0	0	0	0	0	0	0	0	0	0	0	0	0

Reason for Project (if new)

Funds for feasibility studies for both Bennett and South End Branches would focus on the new community needs vs. current design/uses in both locations. The project would include designing space reuse, construction, furniture, technology use and energy efficiency (lighting, hvac, etc.). Expect output would include a capital needs assessment for next 10 years. Study would also explore the need for library service in current community centers, as a cost effective to serve certain neighborhoods.

Reason for Project (if new) A few sections of EIFS have already failed and require replacement before there is more damage and liability from falling pieces.

The exterior envelope of EIFS has failing joints and loose sections. It does not provide the designed insulating value. This request is limited to only the EIFS at this time. The Rich Forum was opened in 1992 and only the roof over the lobby has been replaced since then. Office, auditorium and stage house roof is original and was a 20 year roof. Outyears are for roof replacements.

Fiscal Year 2016/2017 Capital Budget

0351 **Stamford Fire Department**
C63005 **FIRE APPARATUS**

Balance: \$889,432.00 as of 4/30/2016		Priority	
		Dept	2
		Planning	0

388

	Desc-	QTY-	Price-	Extended-	Term
Stamford Fire Dept-	Tanker Truck-	1-	\$300,000-	\$300,000	20 yrs.
Stamford Fire Dept-	Engine	4-	\$570,000	\$2,280,000	10 yrs

We are utilizing an apparatus replacement schedule where front line vehicles are in service for approximately ten years. Once an apparatus is removed from front line service it is utilized as reserve apparatus for additional years.

A Tanker Vehicle is required to ensure water supply to those areas in the City without hydrant water supply. This is a critical piece of apparatus for response to the Northern part of Stamford.

Engines are the basic fire department response vehicle, otherwise known as a pumper truck. Currently the city owns 12 front line Engines and 4 reserves. Replacement Engines are needed for Shippan and Southend both 2004 vintage vehicles and 2 needed to replace an aging volunteer fleet.

Reason for Project (if new) To adhere to new NFPA safety standard and improve Firefighter safety and effectiveness.

Stamford adopted the current SCBA platform in 1982, at the time it was the safest on the market. These SCBA have been upgraded over the years to comply with latest standards and to maintain the highest level of safety. The majority of our equipment has aged out and can no longer be upgraded. The 2013 edition of the standard governing SCBA has seen a major change requiring much more reserve air. This forces us to either require our members to carry much more weight, something they can't do, or change platforms to a new higher pressure technology. In order to continue with the current platform an expenditure of \$250,000 in the next twelve months to replace equipment that will age out, that replacement equipment will not be compatible with the new platform.

No Balance		Priority
		Dept 4
		Planning 0

434 For the purchase of Turn Out Gear for all Stamford Firefighters, Career & Volunteer. Turn out gear in this regard includes coat, pants. NFPA standard 1871 requires the retirement of this equipment within 10 years of the date of manufacturer, best practice is for each firefighter to be issued 2 sets of Turn out gear to allow for repair and decontamination of each. The hazards related to cancer and contaminants that are retained within the gear is becoming clearer through studies every year. Springdale and Long Ridge have not replaced their turn out gear within the last 10 + years. The entire department has better than 330 members required to have turn out gear.

CP7669-NEW LUCAS AUTOMATED CPR UNIT

No Balance		Priority
		Dept 10
		Planning 0

439 Lucas automated chest compression unit. This request will allow medical first responder units to provide accurate and continuous automated CPR (chest compressions) to victims in cardiac arrest. These units are currently on three of the career units. In a pre-hospital real use study** the hands-on ratio with manual CPR was on average 78% with manual CPR and 91% with LUCAS CPR- as measured over the entire resuscitation episodes of approx. 33-40 minutes. The hands-on time of manual CPR decreased from 81% on the scene to 73% during transport, whereas LUCAS stayed at the same high hands-on ratio (90-92%) both on scene and during transport.

0351 Stamford Fire Department

CP3809 CENTRAL FIRE HEADQUARTERS RENOVATION

Balance: \$94,833.00 as of 4/30/2016

Priority

Dept	12
Planning	0

373 Central Fire Headquarters @ 629 Main St. Facilities Management has recommended that we replace the perimeter PTAC HVAC units. More than half of the existing units do not work, these type of units are difficult to work on, parts are expensive, replacement units will NOT be any more reliable than the existing systems. A recommendation will be to switch to a split HVAC system to take care of problem areas throughout the building. These new systems should be tied into the recently installed Energy Management System. Facilities recommendation @ \$150,000. Removal of existing flooring material, installation of clean / non-slip epoxy flooring surface.

Reason for Project (if new)

As a key destination for school and nature programming, this simple and highly functional, multi-use and classroom space will increase our community partnerships, school alliances, and represent the SM&NC as a model of environmental sustainability through land and water management, and efficient use of energy and materials resources. The SM&NC serves over 190,000 visitors annually.

The SM&NC has secured \$750,000 in State of Connecticut DECD matching funds for 2015. We anticipate further funding in 2016.

Reason for Project (if new)

Long neglected for key upgrades, the 2010 Master Plan includes critical infrastructure improvements to south entrance of Heckscher Farm with immediate needs for utility upgrades for safety of our animals and visitors; renovate public bathrooms for safety and ADA compliance; roof and gutter replacements of program spaces and offices; relocation of chicken coop to contiguous duck lawn. The SM&NC presents over 800 public events and school programs annually and serves 190,000 visitors and families annually.
