July 1, 2020

Members of the Board of Finance Members of the Board of Representatives Members of the Planning Board Citizens of the City of Stamford

I am pleased to transmit the Adopted Capital Budget for the fiscal year commencing July 1, 2020 and ending June 30, 2021 along with the plan for capital spending over the succeeding six years. This budget represents the culmination of a Capital Budget submission and approval process that started back in August 2019 and was completed in June 2020.

The City of Stamford Capital Budget for the fiscal year beginning July 1, 2020, which includes all approved projects for both City departments and outside agencies, calls for \$42,341,605 in total capital spending. A total of \$19,460,000 will be financed with General Obligation Bonds.

Category Breakdown		Fund Source	
Education	\$5,250,000	Bond (City)	19,460,000
Administration	241,605	Bond (WPCA)	5,500,000
Stormwater Management	50,000	Capital Non Recurring	9,940,000
Traffic & Road Maintenance	11,750,000	Private Contribution	6,600,000
Engineering	1,200,000	Linkage	191,605
Traffic Engineering	9,500,000	WPCA Reserve Fund	600,000
Parks/Recreation	1,300,000	Total	42,341,605
Land Use	50,000		
Office of Public Safety	1,310,000		
Tech.Equip/Vehicles	4,390,000		
Self Supporting	6,950,000		
Outside Agencies	350,000		
Total	42,341,605		

I want to thank the Planning Board for their efforts in developing their recommended Capital Budget and both the Board of Finance and Board of Representatives for their review and approval of this final Adopted Capital Budget.

Respectfully Submitted,

David R. Martin

Mayor

#### TRANSPORTATION TRAFFIC & PARKING

The Stamford 2030 District recognized the Bureau during the 5th Annual Change Maker Awards on December 3rd, 2019.

#### **2019 FUNDING HIGHLIGHTS**

GRANTS AWARDED: \$18,625,000

DEVELOPER CONTRIBUTIONS: \$13,616,818

PARKING REVENUE: \$7,239,487

<u>Transportation Project Awards—Runner Up</u>
Oaklawn Avenue Roadway Reconstruction

Frank Petise, P.E.

<u>Emerging Leader –Resiliency Award</u> Garrett Bolella, P.E., PTOE—Traffic Engineer

<u>Transportation Project Award</u>
Retiming of City Traffic Signals

Jim Travers & Transportation, Traffic & Parking

#### **2020 PRIORITIES**

West Ave. & West Main St. Improvements Greenwich Ave. & Pulaski St. Roundabout Summer Street Streetscape Improvements Six Intersection Signal Upgrades

Transportation Project Awards—Runner Up
Boxer Square Intersection Improvements
Garrett Bolella, P.E., PTOE

#### CREATING VIBRANT LIVE—WORK—LEARN—PLAY COMMUNITIES

6/26/2020 12:58:29 PM

Estimated change in annual operating cost:

Comments - This project will generate return on investment through year-round usage (expanded rental use and additional revenue-producing events) as well as a reduction in costs associated with existing fundraising expenses (tents, generators, lighting, temporary flooring, etc.). Request also includes an additional \$30,000 for relocating conduit and propane tank). \*The Bartlett Arboretum Association intends to fundraise all additional amounts beyond this request during Capital Campaign.

Encumbered	0.00	Amount Available		511,4	17.23
Advanced	0.00	Unfunded		273,0	00.00

**Project Description** - The existing capital funds will largely address the distressed the exterior condition of the building, identified in the Building Envelope Study completed in August 2012, particularly waterproofing of critical façade and roof areas. Bids were receized but not yet awarded for the waterproofing work (\$756,000 with contingency and construction admnistration). Roof replacement is expected to be +/-\$500,000; bid documents will be developed depending on future funding. Further work on the restoration of the historic building is necessary; grants (like from SHPO) will be used to leverage city funds to the extent possible.

Encumbered	0.00	Amount Available		78,4	136.00
Advanced	0.00	Unfunded		100,0	00.00

Project Description - Continue the modernization masterplan for the Bennett Branch which over the project life will provide the nearly 20 year old facility with spaces requested/needed by current library users: flexible meeting/conference rooms; makerspace and technology learning spaces; alternative program space for youth and adults. Appropriate furnishings will be included. The modernization would be done within the current building envelope. The master plan would also include code review and an examination of MEP systems. Necessary upgrades to the mechanical systems may be part of the plan. Grant funds (through the state library and others) may be available to leverage city funds. (Flooring replacement will be funded through private donations.)

Project Description - The SoundWaters Harbor Education Center will be located in Boccuzzi Park, along the Stamford waterfront. This building, and the SoundWaters education activities it will house, are at the heart of the Planning Department's Master Plan for Boccuzzi Park, which begins construction in 2020. The building will enable 3 key programs to grow: Young Mariners Academy, annually serving 135 Stamford Public School students for a summer of academic enrichment, mentorship, enrichment and sailing; Sound Science, where high school students develop science skills in authentic high level marine research performed at the water's edge, in the lab and aboard our research vessel; and Harbor Corps which trains recent SPS graduates in maritime skills for job training in the marine trades. SoundWaters education programs reach every Stamford Public School student many times throughout their education, in pre-school, elementary, middle and high school, with SoundWaters programs embedded into the curricula to support and amplify classroom learning. Additionally, SoundWaters partners with SPS professional development of Stamford science teachers.

Comments - As part of the Master Plan, SoundWaters has secured \$348,000 in foundation support to rebuild the dunes at the waters edge, once the City removes/ relocates the parking lot in 2020. This grant, through National Fish and Wildlife Foundation, will make it possible for the City to complete Phase 1 for the Master Plan, and is indicative of the close working relationship and shared goals between the Dept of Parks and Rec and SoundWaters. Together, we are determined to create a world-class park for the City of Stamford. The Harbor Education Center will also provide dock and office space for the Marine Police for better access to Stamford Harbor. The project has a total cost of \$8M, including \$2M in State funds.

Comments - 1. Repair and Paint Deteriorating Plaster - The Palace was built in 1927. While it may not be feasible to restore its original grandeur at this time, there are several areas in the auditorium where the plaster is very suspect to fall. \$585,800 2. Plaster in the foyer requires restoration, as it is suspect to fall. \$292,840 3. Security Camera System - Install keyless entry and a camera recording security system to allow central monitoring of the front and rear stage doors, the box office entrance and the numerous exits of the building. \$35,000 4. Fire Marshal cited inoperable fire doors that must be replaced within 6 months. \$20,000 He also requires a vestibule at the basement elevator landing. \$35,000 5. Exterior staircase treads need to be repositioned and reset, as they have endured seasonal freeze/heave. Flanking railing is missing. \$25,000

**Project Description** - Our current Observatory, opened in 1964, was closed in October 2018 due to serious disrepair. The building was deemed unsafe, unhealthy, with irreperable conditions. Funds are requested to demolish the Observatory. Our historic Gregory Maksutov telescope will be safely removed and relocated to the Astronomical Lyceum (telescope museum) of the Magdelena Astronomical Society in New Mexico. Our new Astronomy & Physical Science Center will bring our STEAM astronomy and science programing together in one building at the current location on the north end of our property. This new construction (which is now in concept) brings ADA compliance and enriched science and astronomy programs and creates a major destination for the SM&NC signature education programs which will translate to a dynamic school and community desination for the City of Stamford.

**Comments** - This Phase II project follows our highly successful Phase I Environmental Education Farmhouse and Maple Sugar House complex which opened in November 2018!. Our Campaign For Future Generations brings considerable private donor funds and State Bond funding to create this exceptional Astronomy Center. The City of Stamford funding is an historic partner and critical to our success.

**Project Description** - Charter Oak Communities (COC) is actively planning the fourth and final phase of the Lawnhill Terrace revitalization effort. The first phase, Lawnhill Terrace 1, was completed and occupied in 2016, and the second phase of comprehensive renovations, Lawnhill Terrace 2, was completed and fully occupied early this year. Lawnhill Phase 3 is expected to close by October 15 of this year, and has funding commitments secured from all sources. We appreciate the City's previous commitment of funding to this phase. The fourth phase will be located adjacent to the second and third phases, on Custer Street, and will involve the renovation of thirty-four (34) two and three bedroom townhouse style apartments. As with the first three phases, COC will continue to own the land beneath the development and will be responsible for property management. Supportive services for residents will continue to be provided by Family Centers.

Comments - This project involves an upgrade of the existing undersized drainage system. The preliminary design study was completed. The final design can be performed upon the approval of construction budget request, utilizing current project balance. The design of the drainage system is to increase the water intake into the storm system. This requires acquisition of 2 property easements and street closure. This improvement will upgrade the storm drainage from 2 year storm to 25 year storm event.

**Project Description** - Conversion of the remaining roadway lighting fixtures (over 6,100 fixtures) within the city to LED street lights. The lower wattage 50 and 70watt high pressure sodium fixtures have not been upgraded to LED light fixtures due to the continuous efficiency improvement of new LED products. Manufacturers have just released products which are now as low as 14-39 watts to replace these lights. In addition to saving energy, with the longer life of LED products, maintenance cost will also be decreased.

Comments - The project proposes to dredge Cove Island channel to create a marina basin footprint encompassing all of the docks and extending to within the vicinity of the launch ramp, a 50' wide inner channel leading to the basin, and a 75' wide outer channel. As per Preliminary Design Report, construction cost of \$5.4 million is based on Dredging with Beneficial Reuse (5,217 CY sandy material) & Upland Disposal/Treatment (24,079 CY silty material). FY21/22 outyear request is proposed to provide timber piles of sufficient length (58') that floating docks shall be retained at water surface El. 14.0' NAVD88 in accordance with the current base flood elevation. As per Preliminary Design Report, it is estimated that 795 piles will be required. The FY22/23 outyear request is for dredging at Cumming.

Comments - The CT DEEP is providing 100% funding for design and permitting of an alternative included in the 2016 Holly Pond Restoration Alternatives Analysis report. DEEP will not participate in a dredging project alternative. They will participate in a tidal wetland restoration project alternative. Once design is completed, the City will seek grant funding for the construction, if outside funding is available, and this capital budget request is for the City share. A "place holder" amount has been indicated, but will change once the final design of an alternative has been completed and the cost share has been determined.

**Project Description** - Superstorm Sandy and other weather events have demonstrated the vulnerability of coastal communities like Stamford. Rising sea levels and more severe weather events only increase these vulnerabilities. Some of Stamford's critical infrastructure like the WPCA, important public amenities like parks and public beaches, and the more than 1758 mostly private properties that lie within Stamford's Special Flood Hazard Areas are at risk. Stamford's Master Plan (Policy 7P) and the 2016 Hazard Mitigation Plan outline strategies that can reduce vulnerabilities. However, little has been done to implement them. The Land Use Bureau, therefore, proposes a study of Stamford's Coastal Flood Hazard Areas that will identify flood risks, vulnerabilities, and opportunities to enhance climate resiliency. In addition, the study will develop preliminary design and cost estimates to establish a prioritized list of resiliency projects. This Study could further reduce flood insurance premiums for homeowners though the CRS and is the prerequisite for applying for Federal and State grants for hazard mitigation, such as FEMA's Hazard Mitigation Grant Program, Pre-Disaster Mitigation Program, and others for which only "shovel ready" projects are eligible.

**Comments** - This sudy is critical in allowing the City to apply and be awarded Federal and State grants, e.g., the Pre-Disaster Mitigation Grant (FEMA), who made it very clear in earlier attempts by the City to obtain a FEMA grant that "they have no interest in funding studies, have a study and FEMA will review funding actual projects to implement that study."

**Project Description** - Prepared detailed report by outside consultant Institute of Human Design of all City Facilities which indicates these regulations adopted revised, enforceable accessibility standards called the 2010 ADA Standards for Accessible Design "2010 Standards" or "Standards". The 2010 Standards set minimum requirements – both scoping and technical – for newly designed and constructed or altered State and local government facilities, public accommodations, and commercial facilities to be readily accessible to and usable by individuals with disabilities

Advanced	0.00	Unfunded			

**Project Description** - Per MS4 permit this program is intended to isolate sources of contamination. Elimination/abatement of non-stormwater discharge into stormwater system will be evaluated for corrective measures to be implemented. This will allow for a survey of all the City's outfalls to find where all the highest pollutants may be flowing into the rivers and sound. Once this is determined we can find the source of the pollution and eliminate it.

#### 715 000715 UTILITY COORDINATION PAVING

Agency: 0211 Operations: Traffic & Road Maintenance

Contact: Thomas Turk - (203) 977-5919 - tturk@StamfordCT.gov

Location: throughout the City

Neighborhood: Voting District:

		Dept Priority	3	Tier	3
HTE Date		YTD Balance			
Encumbered		Amount Available			
Advanced	0.00	Unfunded			

**Project Description** - All paving done in coordination with the utilities. Where it is more efficient for the City to perform the final restoration in areas worked on by the Utilities. This will provide drainage repairs and full width paving throughout the areas where the side of the road not touched by the utilities is in disrepair. The utilities provide a contribution for their share of the final restoration costs.

Project Description - To implement meaures to improve safety, mobility, and qualtiy of life in residential areas and areas of high pedestrian use. Each year the Department identifies or receives requests for roadway modifications and improvements. Current requests/identifications, include: Broad St. LRARP Grant (\$150,000. Match); Atlantic St @ Main St LOTCIP Grant (\$75,000 match); West Main St @ Richmond Hill LOTCIP Grant (\$100,000 match for design); Springdale TOD Grant (\$200,000 grant participation of construction); Hope St @ Glenbrook Intersection Improvement (\$300,000. To capitalize on Highways Department in the repaving of Glenbrook); Atlantic St Corridor Improvements (\$200,000. To capitalize on LOTCIP Grant and Veteran's Park Improvements); Safe Routes to Schools Grant for sidewalks within 1 mile of schools (\$160,000. Match); Largo Drive Improvements (\$100,000. To capitalize on Highways Department in the repaving of Largo Drive); Main Street Improvements (\$250,000 to capitalize on nearby LOTCIP Grant and PPP Improvements); Stillwater @ Palmers Hill silver widening (\$200,000. To capitalize on recent resurfacing investments to improve mobility in this congested corridor); Glenbrook @ Scofield bump out (\$25,000. To install permanent bump out to improve sight lines and pedestrian safety at this intersection); Strawberry Hill Corridor Improvements (\$400,000 to capitalize on investments being made at Strawberry Hill School that are needed to ensure the safe flow of traffic as well as to improve the overall lane assignments throughout this heavily occupied corridor); Shippan Round-A-Bout Design(\$150,000. To facilitate a construction design that will allow us to apply for funding to replace a traffic signal with a round-a-bout at this gateway intersection); Cove Road Corridor Improvement Plan (\$175,000. To develop a corridor improvement plan that addresses deficiencies in the roadway and pedestrian access on this roadway); Highview Road Reconstruction (\$250,000 to address deficiencies in the roadway alignment and

#### 607 CP8706 SIDEWALK EXTENSIONS

Agency: 0221 Operations: Traffic Engineering

Contact: James Travers - (203) 977-4133 - Jtravers@stamfordct.gov

Location: Broad Street at Summer, Atlantic, Greyrock, Grove

Neighborhood: Voting District:

		Dept Priority	3	Tier	1	
HTE Date	2020-06-25	YTD Balance	150,000.0			
Encumbered	52,366.00	Amount Available			0.00	
Advanced	0.00	Unfunded		150,0	00.00	

Project Description - To construct sidewalk extensions, to connect missing portions and other prioritize areas of Stamford as a result of the 2011 Traffic Calming Plan, and the 2019 Bicycle and Pedestrain plan. Sidewalk extension projects includes, Alvord Lane, West Avenue @ Selleck Street, Fairfield Avenue @ Liberty Place, Piave Street @ Diaz Street and West Avenue @ Leon Place. These extensions are the City portions to capitalize on developer contributions identified through the departments review of site and construction plans. These projects include installing ADA-compliant curb ramps throughout the City, which is part of a federal accessibility mandate. Sidewalk extensions calm traffic by narrowing the curb radius, and slow the speed at which cars make turns. Many of the crashes occurring within the downtown and throughout Stamford happen as a result of turning cars which fail to yield to pedestrians. Sidewalk extensions are one of the major recommendations of the 2011 Traffic Calming Plan, and these have been planned, and some painted, throughout the City with the intention of constructing them in concrete. Priority areas of implementation are those near to schools or areas with a high percentage of pedestrians, vulnerable users or zero-car households.

Encumbered	4,948.79	Amount Available		3,4	160.47
Advanced	0.00	Unfunded		150,0	00.00

**Project Description** - This project will accommodate implementing elements of comprehensive bicycle and pedestrian plan adopted in 2019. Implementation of this plan will be completed under different phases to contribute to a Complete Street strategy for building a safe, effective and well utilized bicycle and pedestrian network throughout the city, but predominantly most closely in the downtown, South Side, and interconnections to adjacent neighborhoods that will guide land use and capital budget decision on highway and sidewalk improvements for the next 10 to 20 years. The study was initiated by the Regional Planning Agency currently known as WestCOG and completed in earlier 2019.

**Project Description** - Stamford Fire Dept - Engine. \$600,000 We are utilizing an apparatus replacement schedule where front line vehicles are in service for approximately ten years. Once an apparatus is removed from front line service it is utilized as reserve apparatus for additional years. Our Current Truck 3 is 18 years old and in need of replacent for a cost of \$1.2M. We also need to replace an engine to catch up to our scheduled replacement of engines. Engines are the basic fire department response vehicle, otherwise known as a pumper truck. Currently the city owns 13 front line Engines and 3 reserves. Replacement is also needed in the Stamford Volunteer Fire Companies.

**Project Description** - The water company is planning to replace and improve several water mains. Funds will be used to maintain all hydrants and replace damaged and/or inoperable fire hydrants to assure water supply. Also add new hydrants for new water mains added to system and dry hydrants where needed. The construction portion of these ongoing obligations are: digging out existing plumbing and hydrants, road, and sidewalk repairs to restore to previous condition. We have met with the water company and created a priority replacement that is currently being done in the westside.

**Project Description** - For the purchase of Turn Out Gear for all Stamford Firefighters, Career & Volunteer. Per the new CBA, each member receives new gear every 5 years. Turn out gear in this regard includes coat, pants. NFPA standard 1871 requires the retirement of this equipment within 10 years of the date of manufacturer, best practice is for each firefighter to be issued 2 sets of Turn out gear to allow for repair and decontamination of each. The hazards related to cancer and contaminates that are retained within the gear is becoming clearer through studies every year. The entire department has better than 330 members required to have turn out gear.

**Project Description** - This request is for renovating the East Side Fire (#4) Station only. This station was built in the 1950's. The bathroom facilities should be completely upgraded and replaced. Currently it does not have a separate bathroom for females. The dormitory area should also be upgraded and remodeled; flooring, lockers, etc. Part of the parapit wall has fallen and should be repaired asap to prevent further damage.

**Project Description** - Central and other Fire Station capital improvements per engineering study. This multi-year project is currently in progress. The existing carpeting @ three (3) Fire Stations should be removed and replaced with a hard cleanable floor covering. The carpeting has been routinely cleaned, but is worn out, become an eyesore, health and tripping hazard. The existing carpeted areas needs to be removed, underlying floor cleaned, prepared, remediated (if needed and replaced with a clean / non-slip surface). Several other fire stations have had the requested floor coverings installed and we are pleased with the results. These areas are able to be maintained in a routine and hygienic manner, at minimal ongoing expense. Several firehouse parking lots need to be repaved.
