City of Stamford
Zoning Board, Land Use Bureau
Government Center
888 Washington Boulevard
Stamford, CT 06904-2152

Dear Zoning Board Members:

On behalf of Gladys Contreras, enclosed is an Application for Special Permit related to 70 Alvord Lane, Unit A, Stamford, CT 06902 (the "Property"). Ms. Contreras is submitting this Application for Special Permit in order to use the Property as a Group Day Care Home (as defined in the Zoning Regulations of the City of Stamford), so that she may provide day care for up to 12 children. Enclosed are the following:

1. A check in the amount of \$1,460 for the Public Hearing Fee (\$1,000) and the Special Permit Fee for a property of 20,000 square feet or less (\$460);
2. Application for Special Permit;
3. Written statement describing the requested special permit;
4. Project description;
5. Statement of findings;
6. Zoning map;
7. Survey;
8. Legal description;
9. Floor plans and elevations;
10. Photographs of the exterior and interior of the Property; and
11. Owner's authorization from Adela Quito.

Please let us know if you require any additional information or have any questions about this application. Thank you.

Sincerely,

Adam Cowing
Clinical Fellow

**Attachments to
Application for Special Permit
70 Alvord Lane, Unit A, Stamford, CT 06902**

REQUESTED SPECIAL PERMIT:

The applicant, Gladys Contreras, the tenant at the subject property, requests a special permit to use the subject property as a Group Day Care Home (as defined in the Zoning Regulations of the City of Stamford).

PROJECT DESCRIPTION:

Ms. Contreras owns and resides at the condominium unit located at 70 Alvord Lane, Unit B, Stamford, CT 06902 ("Unit B"), the unit next to the subject property, and currently operates a Family Day Care Home (up to six children) at Unit B. She currently leases the subject property ("Unit A") from Adela Quito and would like to expand her day care to a Group Day Care Home (up to 12 children) at Unit A. Ms. Contreras anticipates that once the proposed Group Day Care Home is operating at Unit A, Ms. Contreras will cease operating the Family Day Care Home at Unit B. Family Day Care Homes are permitted as of right in the R-5 district but Group Day Care Homes currently require a special permit.

The proposed Group Day Care Home would provide day care for up to twelve children, ages two to five years old. Ms. Contreras anticipates hiring two staff members in addition to herself to run the Group Day Care Home. Unit A includes 2,544 of gross square footage and 1,449 square feet of living area. The living area and master bedroom in Unit A would provide the primary indoor play areas for the children. Ms. Contreras anticipates using the living area for preschool age children and the master bedroom for toddlers. There are also two additional bedrooms, which Ms. Contreras plans to use for an office and storage, respectively.

In addition, the property includes a large, fenced-in backyard covered with grass and flowers, accessible to both Unit A and Unit B. This backyard currently provides outdoor play area for Ms. Contreras's Family Day Care Home and would provide outdoor play area for the proposed Group Day Care Home. This would provide space for children to be outside, exercise, garden, and develop fine and gross motor skills.

The proposed Group Day Care Home would operate between 7 a.m. and 6 p.m., Monday through Friday. Parents would drop off their children and pick up their children at various times during those hours of operation, depending on family's schedules. Each condominium unit has three dedicated off-street parking spaces in front of the property, for a total of six off-street parking spaces for Ms. Contreras, two staff, and parents dropping off and picking up their children. Parents will park in these parking spaces, so that they can go to the door of the proposed Group Day Care Home to drop off and pick up their children. It generally takes about 5 minutes for parents to drop off or pick up their children.

STATEMENT OF FINDINGS:

Special Permits shall be granted by the reviewing board only upon a finding that the proposed use or structure or the proposed extension or alteration of an existing use or structure is in accord with the public convenience and welfare after taking into account, where appropriate:

(1) the location and nature of the proposed site including its size and configuration, the proposed size, scale and arrangement of structures, drives and parking areas and the proximity of existing dwellings and other structures.

The proposed Group Day Care Home use neither anticipates nor requires changes to any built structure; it is simply a use permission. The proposed Group Day Care Home is appropriately located in a medium density residential neighborhood proximate to major roads and employment opportunities. It is, therefore, conveniently located for the benefit of the families it will serve. The structure, a 1,449 square foot townhome, will easily accommodate up to 12 children and required staff.

(2) the nature and intensity of the proposed use in relation to its site and the surrounding area. Operations in connection with special permit uses shall not be injurious to the neighborhood, shall be in harmony with the general purpose and intent of these Regulations, and shall not be more objectionable to nearby properties by reason of noise, fumes, vibration, artificial lighting or other potential disturbances to the health, safety or peaceful enjoyment of property than the public necessity demands.

Child care creates no objectionable noises, fumes, vibration, artificial lighting or other potential disturbances to the health, safety or peaceful enjoyment of property. Group child care, by state law, is limited to just 12 children and is, therefore, a low-intensity use of the site. Per the State Zoning Enabling Act, family and group child care are compatible with residential uses generally.

(3) the resulting traffic patterns, the adequacy of existing streets to accommodate the traffic associated with the proposed use, the adequacy of proposed off-street parking and loading, and the extent to which proposed driveways may cause a safety hazard, or traffic nuisance.

Parents will drop off and pick up their children but will not park for long periods of time. They will use off-street parking located on site for drop-off and pick-up. One staff member, Ms. Contreras, lives immediately next door, in the adjoining condominium unit, and will not require parking. Up to two additional staff will park in the three spots dedicated to Unit A. A child care use does not require any more access to loading facilities than a typical residential use would. There is adequate off-street parking available in this neighborhood.

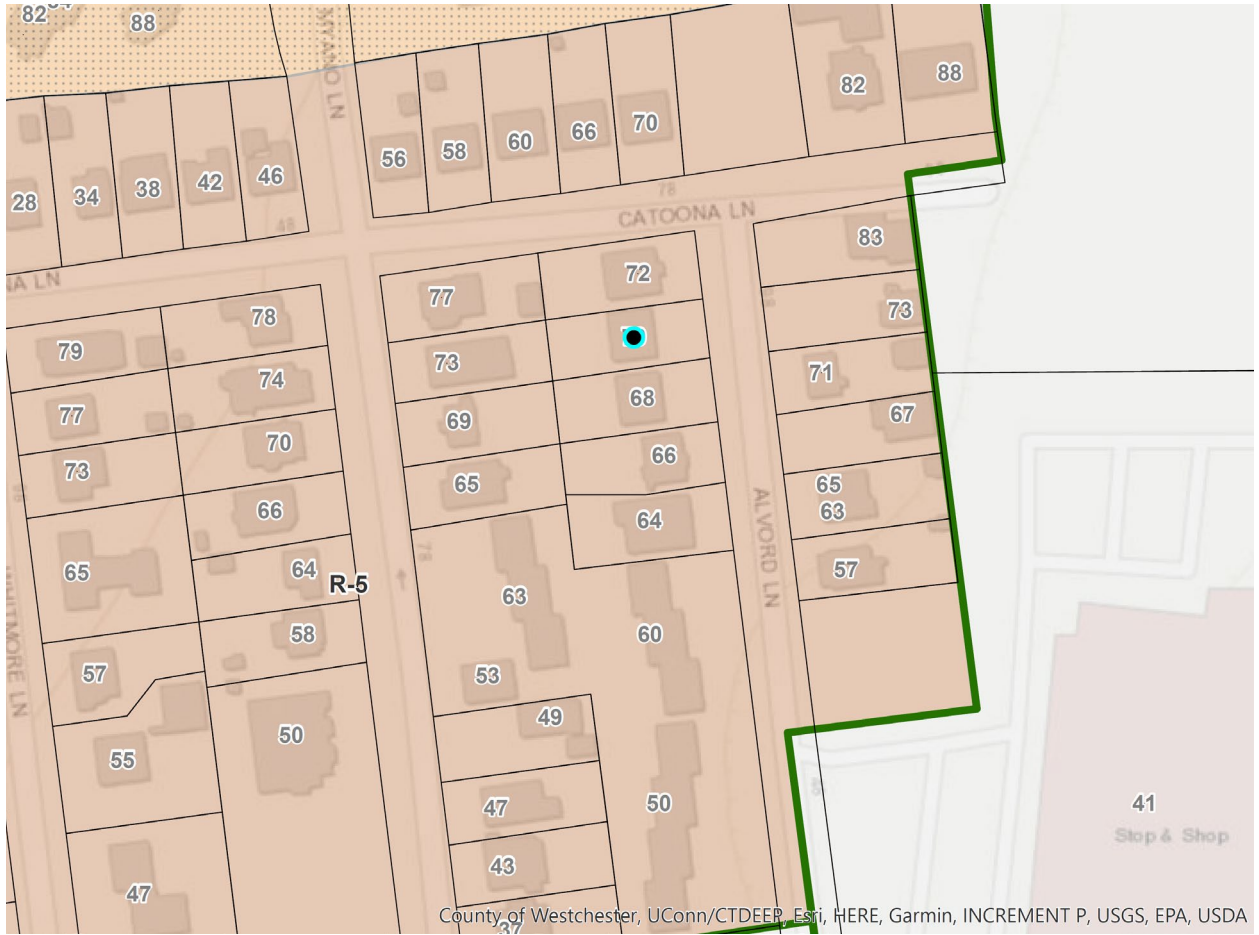

(4) the nature of the surrounding area and the extent to which the proposed use or feature might impair its present and future development.

The proposed Group Day Care Home use is compatible with the surrounding area. The immediate area is largely residential but the site is mere blocks away from a variety of commercial and retail uses and conveniently located near a substantial number of major employers. The availability of licensed day care contributes to a neighborhood's attractiveness and livability. It also contributes to the ability of Stamford residents to secure employment while trusting their children are properly cared for and receiving high quality early childhood services.

(5) the Master Plan of the City of Stamford and all statements of the purpose and intent of these regulations.

The proposed use is consistent with the Master Plan which, in its economic development strategy, prioritizes “cradle to career” education and training. (Policy 3C, Implementation Strategy 3C.1, page 71). This approach to education and training is supported by the availability of affordable, licensed child care. In addition, the Master Plan seeks to “ensure that people who work in Stamford can afford to live in Stamford.” (Policy 3C, Implementation Strategy 3C.2, page 71.) Available affordable child care is key to that policy goal.
